The Queue Basma Abdel Aziz 2016-05-24 "The Queue ... has drawn comparisons to Western classics like George Orwell's 1984 and The Trial by Franz Kafka. It represents a new wave of dystopian and surrealist fiction from Middle Eastern writers who are grappling with the chaotic aftermath and stinging disappointments of the Arab Spring." -- The New York Times Winner of the English PEN Translation Award In a surreal, but familiar, vision of modern day Egypt, a centralized authority known as 'the Gate' has risen to power in the aftermath of the 'Disgraceful Events,' a failed popular uprising. Citizens are required to obtain permission from the Gate in order to take care of even the most basic of their daily affairs, yet the Gate never opens, and the queue in front of it grows longer. Citizens from all walks of life mix and wait in the sun: a revolutionary journalist, a sheikh, a poor woman concerned for her daughter's health, and even the brother of a security officer killed in clashes with protestors. Among them is Yehia, a man who was shot during the Events and is waiting for permission from the Gate to remove a bullet that remains lodged in his pelvis. Yehia's health steadily declines, yet at every turn, officials refuse to assist him, actively denying the very existence of the bullet. Ultimately it is Tarek, the principled doctor tending to Yehia's case, who must decide whether to follow protocol as he has always done, or to disobey the law and risk

his career to operate on Yehia and save his life. Written with dark, subtle humor, *The Queue* describes the sinister nature of authoritarianism, and illuminates the way that absolute authority manipulates information, mobilizes others in service to it, and fails to uphold the rights of even those faithful to it.

The King in Yellow Robert William Chambers 2020-09-28

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal

Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.
