How to Remember the Difference Struggling to remember which drops the “e” and which doesn't? Aging is for American readers. Ageing is for British readers and includes the letter “e”, as in England.

## *What is ageing? - Senescencia*

Ageing is an inevitable, irreversible process, but it is not necessarily negative. Francesc Formiga stresses the positive aspect of ageing: the benefits that also come with growing old.

Formiga holds a PhD in Medicine from the UB, and leads the programme ...

*What Do We Know About Healthy Aging? - National Institute on Aging*

Feb 23, 2022 · As people age, changes such as hearing and vision loss, memory loss, disability, trouble getting around, and the loss of family and friends can make it difficult to maintain social connections. This makes older adults more likely to be socially isolated or to feel lonely. Although they sound similar, social isolation and loneliness are different.

### **Ageing - Wikipedia**

Population ageing is the increase in the number and proportion of older people in society. Population ageing has three possible causes: migration, longer life expectancy (decreased death rate) and decreased birth rate. Ageing has a significant impact on society.

### **Ageing and health - World Health Organization**

Oct 1, 2022 · The UN Decade of Healthy Ageing (2021-2030) seeks to reduce health inequities and improve the lives of older people, their families and communities through collective action in four areas: changing how we think, feel and act towards age and ageism; developing communities in ways that foster the abilities of older people; delivering person-centred integrated care and ...
