**Liquid Scripture** Jeffrey S. Siker 2017-09-01 The electronic Bible is here to stay??packaged in software on personal computers, available as apps on tablets and cell phones. Increasingly, students look at glowing screens to consult the Bible in class, and congregants do the same in Bible study and worship. Jeffrey S. Siker asks, what difference does it make to our experience of Scripture if we no longer hold a book in our hands, if we again "scroll" through Scripture? How does the "flow" of electronic Scripture change our perception of the Bible's authority and significance? Siker discusses the difference made when early Christians adopted the codex rather than the scroll and Gutenberg began the mass production of printed Bibles. He also reviews the latest research on how the reading brain processes digital texts and how churches use digital Bibles, including American Bible Society research and his own surveys of church leaders. Siker asks, does the proliferation of electronic translations reduce the perceived seriousness of Scripture? Does it promote an individualistic response to the Bible? How does the change from a physical Bible affect liturgical practice? His synthesis of the advantages and risks of the digitized Bible merit serious reflection in classrooms and churches alike.

Target 100 is Liz in book form—smart, supportive, and full of practical, simple solutions. Liz changed my life and my whole concept of dieting—and now can change, yours too." —Jessica Simpson

When did weight loss get so complicated? Today, it feels like there are a million different apps, tools, workouts, and eating plans designed to help you lose weight. Some promise success via drastic, unlivable restrictions, others are so complex they turn losing weight into a second job. In Target 100, celebrity weight-loss coach Liz Josefsberg shows you don't have to be a slave to your weight-loss program. You don't have to count every gram of every nutrient and every calorie you eat at every meal. Believe it or not, weight loss can be simple. It can even be . . . fun. A 15-year veteran of the weight-loss industry and who lost—and kept off—65 pounds herself, Liz has accrued a high-profile clientele. She helped Oscar-winner Jennifer Hudson lose weight and transform her life and coached Jessica Simpson to shed over 50 pounds of baby weight (twice!). But along with the likes of Charles Barkley and Katie Couric, Josefsberg has also coached thousands of others, everyone from stay-at-home moms to office jockeys. Along the way, she's learned what works—and what doesn't—when it comes to lasting weight loss, and she's ready to share her secrets with the rest of us. Target 100 streamlines the weight-loss process into six easy-to-follow guidelines and shows you how to adjust them to fit your lifestyle, personalizing the program so that it works for you. Josefsberg offers tips, worksheets, and powerful insights to help you fine-tune a range of weight-related behaviors, from battling stress to getting more sleep, setting the stage for permanent, long-term weight loss. Instead of counting calories, you'll learn how simple changes come together to jumpstart your health and wellbeing, such as: • Drinking 100 ounces of water a day • Exercising for 100 minutes a week • Adding 100 minutes of Sleep a week • De-Stressing for 100 minutes a week • And more! This volume seeks to address the role that paradigms may play in the description of compounding, conversion and participles. This volume should be of interest to anyone specialized in the field of English morphology and word formation.
