Beginning to End Hunger M. Jahi Chappell 2018-01-23 Beginning to End Hunger presents the story of Belo Horizonte, home to 2.5 million people and the site of one of the world's most successful city-run food security programs. Since its Municipal Secretariat of Food and Nutritional Security was founded in 1993, Belo Horizonte has sharply reduced malnutrition, leading it to serve as an inspiration for Brazil's renowned Zero Hunger programs. The secretariat's work with local family farmers shows how food security, rural livelihoods, and healthy ecosystems can be supported together. While inevitably imperfect, Belo Horizonte offers a vision of a path away from food system dysfunction, unsustainability, and hunger. In this convincing case study, M. Jahi Chappell establishes the importance of holistic approaches to food security, suggests how to design successful policies to end hunger, and lays out strategies for enacting policy change. With these tools, we can take the next steps toward achieving similar reductions in hunger and food insecurity elsewhere in the developed and developing worlds.

Paradigms in Word Formation Alba E. Ruz 2022-09-15 The focus of *Paradigms in Word Formation: Theory and applications* is on the relevance of paradigms for linguistic description. Paradigmatic organization has traditionally been considered an inherent feature of inflectional morphology, but research in the last decades clearly shows the existence of paradigms in word formation, especially in affixal derivation, often at the expense of other word-formation processes. This volume seeks to address the role that paradigms may play in the description of compounding, conversion and participles. This volume should be of interest to anyone specialized in the field of English morphology and word formation.
