Writing New Media Anne Wysocki 2007-03-01 As new media mature, the changes they bring to writing in college are many and suggest implications not only for the tools of writing, but also for the contexts, personae, and conventions of writing. An especially visible change has been the increase of visual elements—from typographic flexibility to the easy use and manipulation of color and images. Another would be in the scenes of writing—web sites, presentation "slides," email, online conferencing and coursework, even help files, all reflect non-traditional venues that new media have brought to writing. By one logic, we must reconsider traditional views even of what counts as writing; a database, for example, could be a new form of written work. The authors of *Writing New Media* bring these ideas and the changes they imply for writing instruction to the audience of rhetoric/composition scholars. Their aim is to expand the college writing teacher's understanding of new media and to help teachers prepare students to write effectively with new media beyond the classroom. Each chapter in the volume includes a lengthy discussion of rhetorical and technological background, and then follows with classroom-tested assignments from the authors' own teaching.

Islands in a Far Sea John L. Culliney 2005-11-30 First published in 1988, *Islands in a Far Sea* offers a comprehensive environmental history of Hawai'i. This thoroughly revised edition begins with an up-to-date account of the geological formation and shaping of the Islands, their colonization by plants and animals, and the patterns of ecology and evolution that unfolded in nurturing seas and on breath-taking landscapes. This book tells the story of human interaction with Hawai'i's native landscapes and rich biological heritage. The author's accessible language allows readers to grasp basic geological and biological principles and to understand the perhaps surprising vulnerability of Hawaiian ecosystems—which have coevolved with volcanoes—to human impact. *Islands in a Far Sea* includes many well-documented historical examples of such impacts, featuring growth and greed, fears and foibles as humans confronted endemic nature in Hawai'i. Citing a large array of sources, the author makes it possible for interested readers to probe more deeply the changes in natural systems that have ensued on all of the Hawaiian Islands. To date the result has been the tragic reduction of a unique and benign biota. However, the book holds out hope that current efforts to protect what is left of Hawai'i's flora and fauna in their remaining wild settings may yet succeed.

Aim for the Heart Al Tompkins 2017-01-12 Al Tompkins teaches students about broadcast journalism using a disarmingly simple truth—if you aim for the heart with the copy you write and the sound and video you capture, you will compel your viewers to keep watching. With humor, honesty, and directness, award-winning journalist and author Al Tompkins bottles his years of experience and insight in a new Third Edition that offers students the fundamentals they need to master journalism in today's constantly evolving media environment, with practical know-how they can immediately put to use in their careers. *Aim for the Heart* is as close as you can get to spending a week in one of Tompkins's training sessions that he has delivered in newsrooms around the world, from which students: • Learn how to build compelling characters who connect with the audience • Write inviting leads • Get memorable soundbites • See how to light, crop, frame, and edit compelling videos • Learn how to leverage social media to engage audiences • Gain critical thinking skills that move your story from telling the "what" to telling the "why"

A Gathering of Old Men Ernest J. Gaines 2012-10-31 A powerful depiction of racial tensions arising over the death of a Cajun farmer at the hands of a black man—set on a Louisiana sugarcane plantation in the 1970s. The Village Voice called *A Gathering of Old Men* "the best-written novel on Southern race relations in over a decade."

Breakthrough Principals Jean Desravines 2016-04-18 Bridge the achievement gap with proven strategies for student success *Breakthrough Principals* debunks the myth of the 'superhero' principal by detailing the common actions and practices of leaders at our nation's fastest-gaining public schools. Based on the authors' Transformational Leadership Framework, which they developed through in-depth study of more than 100 high-gaining, high-poverty schools, the book distills findings into a practical, action-focused plan for diagnosing school needs and implementing structures, systems and practices that accelerate student achievement. Brought to life by case studies of principals who have led dramatic gains in student achievement, the book is a how-to guide for increasing the quality of teaching and learning; improving school culture; attracting and supporting high-performing teachers; and involving parents and community to help students achieve. You'll learn how breakthrough principals make the school's mission a real part of both strategy and practice, and set up sustainable systems that support consistent, ongoing improvement. High-impact practices are organized into five broad categories: learning and teaching, school-wide culture, aligned staff, operations and systems, and personal leadership. The primary job of school leadership is to help students succeed. It begins with first recognizing and prioritizing areas of need, then finding and implementing the most effective solutions. Whether you work in a turn around environment, or want to make a good school better, this book will give you a set of concrete practices—illustrated through examples of real principals in real schools—that have been proven to work. Discover the primary drivers of student achievement Work toward the school's vision in staffing, operations, and systems Set the tone for all relationships and practices with good leadership Closing the achievement gap is a major goal of educational leadership, and principals are forever searching for viable methods that help them better serve their students. *Breakthrough Principals* unveils the details behind the success stories from across the nation to provide a roadmap to transformative gains.

Lord of the Flies William Golding 2003-12-16 Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

MLA Style Manual and Guide to Scholarly Publishing Joseph Gibaldi 1998 The *MLA Style Manual* has been the standard guide for graduate students, teachers, and scholars in the humanities and for professional writers in many fields. The second edition contains several added sections and updated guidelines on citing electronic works -- including materials found on the World Wide Web. There is an expanded chapter on the publication process, from manuscript to published work, and advice for those seeking to publish their articles or books. A chapter by the attorney Arthur F. Abelman reviews legal issues, such as copyright law, the concept of fair use, the provisions of a typical publishing contract, defamation, and the emergence of privacy law. Other chapters discuss stylistic conventions and the preparation of manuscripts, theses, and dissertations and offer an authoritative and comprehensive presentation of MLA documentation style.

A History of Modern Criticism: The later nineteenth century René Wellek 1955

The Song of the Lark Willa Cather 1999-05-01 In this powerful portrait of the self-making of an artist, Willa Cather created one of her most extraordinary heroines. Thea Kronborg, a minister's daughter in a provincial Colorado town, seems destined from childhood for a place in the wider world. But as her path to the world stage leads her ever farther from the humble town she can't forget and from the man she can't afford to love, Thea learns that her exceptional musical talent and fierce ambition are not enough. It is in the solitude of a tiny rock chamber high in the side of an Arizona cliff—"a cleft in the heart of the world"—that Thea comes face to face with her own dreams and

desires, stripped clean by the haunting purity of the ruined cliff dwellings and inspired by the whisperings of their ancient dust. Here she finds the courage to seize her future and to use her gifts to catch "the shining, elusive element that is life itself--life hurrying past us and running away, too strong to stop, too sweet to lose." In prose as shimmering and piercingly true as the light in a desert canyon, Cather takes us into the heart of a woman coming to know her deepest self.

Marianne Moore, *Imaginary Possessions* Bonnie Costello 1981 Analyzes the stages in Moore's development from purely imagist style to her preoccupations with the visual arts, with the question of form in relation to message and with the conflict between tension and fluency. Contains readings of individual poems, shedding light on their meaning and tone, under such headings as "Images of Sweetened Combat" and "Images of Luminosity, Iridescence, and Metamorphosis".

Writing about Writing Elizabeth Wardle 2014-01-10 Based on Wardle and Downs' research, the first edition of *Writing about Writing* marked a milestone in the field of composition. By showing students how to draw on what they know in order to contribute to ongoing conversations about writing and literacy, it helped them transfer their writing-related skills from first-year composition to other courses and contexts. Now used by tens of thousands of students, *Writing about Writing* presents accessible writing studies research by authors such as Mike Rose, Deborah Brandt, John Swales, and Nancy Sommers, together with popular texts by authors such as Malcolm X and Anne Lamott, and texts from student writers. Throughout the book, friendly explanations and scaffolded activities and questions help students connect to readings and develop knowledge about writing that they can use at work, in their everyday lives, and in college. The new edition builds on this success and refines the approach to make it even more teachable. The second edition includes more help for understanding the rhetorical situation and an exciting new chapter on multimodal composing. The print text is now integrated with e-Pages for *Writing about Writing*, designed to take advantage of what the Web can do. The conversation on writing continues on the authors' blog, *Write On: Notes on Writing about Writing* (a channel on Bedford Bits, the Bedford/St. Martin's blog for teachers of writing).

Cape Cod Stories Tim Smith 2002-02 From the drifting sand dunes and quaint shops of Provincetown to Nantucket's whitewashed verandas and craggy beaches, *Cape Cod Stories* evokes all the rustic beauty and history of this picturesque area in the words of America's best writers. With a striking new cover, this popular anthology is the next best thing to a summer on the Cape.

Fiction Without Humanity Lynn Festa 2019-06-28 Although the Enlightenment is often associated with the emergence of human rights and humanitarian sensibility, "humanity" is an elusive category in the literary, philosophical, scientific, and political writings of the period. *Fiction Without Humanity* offers a literary history of late seventeenth- and early eighteenth-century efforts to define the human. Focusing on the shifting terms in which human difference from animals, things, and machines was expressed, Lynn Festa argues that writers and artists treated humanity as an indefinite class, which needed to be called into being through literature and the arts. Drawing on an array of literary, scientific, artistic, and philosophical devices—the riddle, the fable, the microscope, the novel, and trompe l'oeil and still-life painting—*Fiction Without Humanity* focuses on experiments with the perspectives of nonhuman creatures and inanimate things. Rather than deriving species membership from sympathetic identification or likeness to a fixed template, early Enlightenment writers and artists grounded humanity in the enactment of capacities (reason, speech, educability) that distinguish humans from other creatures, generating a performative model of humanity capacious enough to accommodate broader claims to human rights. In addressing genres typically excluded from canonical literary histories, *Fiction Without Humanity* offers an alternative account of the rise of the novel, showing how these early experiments with nonhuman perspectives helped generate novelistic techniques for the representation of consciousness. By placing the novel in a genealogy that embraces paintings, riddles, scientific plates, and fables, Festa shows realism to issue less from mimetic exactitude than from the tailoring of the represented world to a distinctively human point of view.

Mexican Literature in Theory Ignacio M. Sánchez Prado 2018-01-25 *Mexican Literature in Theory* is the first book in any language to engage post-independence Mexican literature from the perspective of current debates in literary and cultural theory. It brings together scholars whose work is defined both by their innovations in the study of Mexican literature and by the theoretical sophistication of their scholarship. *Mexican Literature in Theory* provides the reader with two contributions. First, it is one of the most complete accounts of Mexican literature available, covering both canonical texts as well as the most important works in contemporary production. Second, each one of the essays is in itself an important contribution to the elucidation of specific texts. Scholars and students in fields such as Latin American studies, comparative literature and literary theory will find in this book compelling readings of literature from a theoretical perspective, methodological suggestions as to how to use current theory in the study of literature, and important debates and revisions of major theoretical works through the lens of Mexican literary works.

Language As Symbolic Action Kenneth Burke 1966 From the Preface: The title for this collection was the title of a course in literary criticism that I gave for many years at Bennington College. And much of the material presented here was used in that course. The title should serve well to convey the gist of these various pieces. For all of them are explicitly concerned with the attempt to define and track down the implications of the term "symbolic action," and to show how the marvels of literature and language look when considered from that point of view.

Cooked Michael Pollan 2014-04-29 Michael Pollan, the bestselling author of *The Omnivore's Dilemma*, *Food Rules*, *How to Change Your Mind*, and *This is Your Mind on Plants* explores the previously uncharted territory of his own kitchen in *Cooked*. "Having described what's wrong with American food in his best-selling *The Omnivore's Dilemma* (2006), New York Times contributor Pollan delivers a more optimistic but equally fascinating account of how to do it right. . . . A delightful chronicle of the education of a cook who steps back frequently to extol the scientific and philosophical basis of this deeply satisfying human activity." —Kirkus (starred review) *Cooked* is now a Netflix docuseries based on the book that focuses on the four kinds of "transformations" that occur in cooking. Directed by Oscar-winning filmmaker Alex Gibney and starring Michael Pollan, *Cooked* teases out the links between science, culture and the flavors we love. In *Cooked*, Pollan discovers the enduring power of the four classical elements—fire, water, air, and earth—to transform the stuff of nature into delicious things to eat and drink. Apprenticing himself to a succession of culinary masters, Pollan learns how to grill with fire, cook with liquid, bake bread, and ferment everything from cheese to beer. Each section of *Cooked* tracks Pollan's effort to master a single classic recipe using one of the four elements. A North Carolina barbecue pit master tutors him in the primal magic of fire; a Chez Panisse-trained cook schools him in the art of braising; a celebrated baker teaches him how air transforms grain and water into a fragrant loaf of bread; and finally, several mad-genius "fermentos" (a tribe that includes brewers, cheese makers, and all kinds of picklers) reveal how fungi and bacteria can perform the most amazing alchemies of all. The reader learns alongside Pollan, but the lessons move beyond the practical to become an investigation of how cooking involves us in a web of social and ecological relationships. Cooking, above all, connects us. The effects of not cooking are similarly far reaching. Relying upon corporations to process our food means we consume large quantities of fat, sugar, and salt; disrupt an essential link to the natural world; and weaken our relationships with family and friends. In fact, *Cooked* argues, taking back control of cooking may be the single most important step anyone can take to help make the American food system healthier and more sustainable. Reclaiming cooking as an act of enjoyment and self-reliance, learning to perform the magic of these everyday transformations, opens the door to a more nourishing life.

Global Warming - Myth or Reality? Marcel Leroux 2006-08-31 This book seeks to separate fact from fiction in the global-warming debate. The author begins by describing the history of the Intergovernmental Panel on Climate Change (IPCC) and many other conferences, and their dire predictions on global temperatures, rainfall, weather and climate, while highlighting confusion and sensationalism media reports. He then lays out the "heretical" scientific case of the sizable skeptical scientific community who challenge the accepted wisdom.

Pragmatism, Old And New Susan Haack 2011-02-10 The most likely use for Haack's volume will be in introductory pragmatism courses and it is eminently appropriate for this task. However, others who would wish to speak out about pragmatism authoritatively would do well to go through the book from cover to cover. Outside of philosophy, the volume provides an introduction to a vital aspect of what philosophy has to offer to other disciplines, psychology among them....it is hard to think what could have been done to improve upon the collection. -Metapsychology Morris R. Cohen once described pragmatism as a philosophy for people who cannot think; and Bertrand Russell feared that pragmatism would lead philosophy into cosmic impiety. Nothing could be further from the truth. Pragmatism was one of the most fruitful philosophical movements of the late nineteenth century, and has continued to be a significant influence on some of the major figures in philosophy - F. P. Ramsey, W. V. Quine, Sidney Hook, Nelson Goodman, Hilary Putnam, and many others. Today some even speak of a remarkable renaissance of pragmatism. Very often, though, what they have in mind is not the rich heritage of the classical pragmatist tradition, but a radical self-styled neo-pragmatism that has of late transmuted the reformist aspirations of classical pragmatism into a kind of revolutionary anti-intellectualism - a radical neo-pragmatism that seems to confirm Russell's worst fears. Asking what we can learn from the older pragmatist tradition, and what we can salvage from the intellectual shipwreck of the new, Susan Haack, with the assistance of Robert Lane, has put together a wide-ranging anthology that tells the story of the evolution of pragmatism from its origins in C. S. Peirce's hopes of making philosophy more scientific and William James's of unstiffening our theories, to the radical literary-political neo-pragmatism recently popularized by Richard Rorty. Opening with a history of pragmatism from its inception to the present day, and closing with Haack's famous interview with Peirce and Rorty, the book presents a broad and diverse selection of pragmatist writings - classical and contemporary, reformist and revolutionary - on logic, metaphysics, theory of inquiry, philosophy of mind, philosophy of religion, aesthetics, philosophy of education, and moral, social, and political philosophy. Susan Haack (Coral Gables, FL) is Cooper Senior Scholar in Arts and Sciences, professor of philosophy, and professor of law at the University of Miami. She is the author of numerous highly acclaimed books including *Defending Science-Within Reason*; *Philosophy of Logics*; *Evidence and Inquiry*; *Deviant Logic, Fuzzy Logic: Beyond the Formalism*; and *Manifesto of a Passionate Moderate: Unfashionable Essays*. Robert Lane (Carrollton, GA) is assistant professor of philosophy at the University of West Georgia. He has published on American philosophy, the history of logic, and ethics.

The Bedford Handbook Diana Hacker 2013-10-18 What habits are common among good college writers? Good college writers are curious, engaged, reflective, and responsible. They read critically. They write with purpose. They tune into their audience. They collaborate and seek feedback. They know credible evidence makes them credible researchers. They revise. The *Bedford Handbook*, based on surveys with more than 1,000 first-year college students, fosters these habits and offers more support than ever before for college reading and writing. New writing guides support students as they compose in an ever-wider variety of genres, including multimodal genres. New reading support encourages students to become active readers. Retooled research advice emphasizes inquiry and helps writers cite even the trickiest digital sources confidently and responsibly. Best of all, the *Handbook* remains a trusted companion for students because it is accessible, comprehensive, and authoritative. Instructors benefit, too: A substantially revised *Instructor's Edition* includes Nancy Sommers's personal mentoring—more than 100 new concrete tips for teaching with the handbook. Finally, integrated digital content is easily assignable and helps students practice and apply the handbook's lessons.

Tales Before Tolkien: The Roots of Modern Fantasy Douglas A. Anderson 2003-08-26 Terry Brooks. David Eddings. George R. R. Martin. Robin Hobb. The top names in modern fantasy all acknowledge J. R. R. Tolkien as their role model, the author whose work inspired them to create their own epics. But what writers influenced Tolkien himself? Here, internationally recognized Tolkien expert Douglas A. Anderson has gathered the fiction of authors who sparked Tolkien's imagination in a collection destined to become a classic in its own right. Andrew Lang's romantic swashbuckler, "The Story of Sigurd," features magic rings, an enchanted sword, and a brave hero loved by two beautiful women—and cursed by a ferocious dragon. Tolkien read E. A. Wyke-Smith's "The Marvelous Land of Snergs" to his children, delighting in these charming tales of a pixieish people "only slightly taller than the average table." Also appearing in this collection is a never-before-published gem by David Lindsay, author of *Voyage to Arcturus*, a novel which Tolkien praised highly both as a thriller and as a work of philosophy, religion, and morals. In stories packed with magical journeys, conflicted heroes, and terrible beasts, this extraordinary volume is one that no fan of fantasy or Tolkien should be without. These tales just might inspire a new generation of creative writers. *Tales Before Tolkien: 22 Magical Stories* "The Elves" by Ludwig Tieck "The Golden Key" by George MacDonald "Puss-Cat Mew" by E. H. Knatchbull-Hugessen "The Griffin and the Minor Canon" by Frank R. Stockton "The Demon Pope" by Richard Garnett "The Story of Sigurd" by Andrew Lang "The Folk of the Mountain Door" by William Morris "Black Heart and White Heart" by H. Rider Haggard "The Dragon Tamers" by E. Nesbit "The Far Islands" by John Buchan "The Drawn Arrow" by Clemence Housman "The Enchanted Buffalo" by L. Frank Baum "Chu-bu and Sheemish" by Lord Dunsany "The Baumhoff Explosive" by William Hope Hodgson "The Regent of the North" by Kenneth Morris "The Coming of the Terror" by Arthur Machen "The Elf Trap" by Francis Stevens "The Thin Queen of Elfhame" by James Branch Cabell "The Woman of the Wood" by A. Merritt "Golios the Ogre" by E. A. Wyke-Smith "The Story of Alwina" by Austin Tappan Wright "A Christmas Play" by David Lindsay

The Best American Essays 2013 Cheryl Strayed 2013-10-08 Curated by the #1 New York Times bestselling author of *Wild*, this volume shares intimate perspectives from some of today's most acclaimed writers. As Cheryl Strayed explains in her introduction, "the invisible, unwritten last line of every essay should be and nothing was ever the same again." The reader, in other words, should feel the ground shift, if even only a bit. In this edition of the acclaimed anthology series, Strayed has gathered twenty-six essays that each capture an inexorable, tectonic shift in life. Personal and deeply perceptive, this collection examines a broad range of life experiences—from a man's relationship with Mormonism to a woman's search for a serial killer; from listening to the music of Joni Mitchell to surviving five months at sea; from triaging injured soldiers to giving birth to a daughter; and much more. *The Best American Essays 2013* includes entries by Alice Munro, Zadie Smith, John Jeremiah Sullivan, Dagoberto Gilb, Vicki Weiqi Yang, J.D. Daniels, Michelle Mirsky, and others.

Global Americans: A History of the United States Maria Montoya 2016-12-05 GLOBAL AMERICANS speaks to an increasingly diverse population of students who seek to understand the place of the United States in a shifting global, social, cultural, and political landscape. America's national experience and collective history have always been subject to transnational forces and affected by global events and conditions. In recognition of this reality, this insightful new text presents a history of North America and then the United States in which world events and processes are central rather than colorful sidelights. The narrative recovers the global aspects of America's past and helps students understand the origins of the interconnected world in which they live. By weaving together stories, analysis, interpretation, visual imagery, and primary sources from across time and place, this book presents a revised history that reflects America's -- and Americans' -- relationship to events and peoples across the continent and beyond.
