International Law Antonio Cassese is manageable in our digital library an online right of entry to it is set as public consequently you can download it instantly. Our digital library saves in merged countries, allowing you to acquire the most less latency times to download any of our books behind this one. Merely said, the International Law Antonio Cassese is universally compatible in imitation of any devices to read.

The Concept of Universal Crimes in International Law Terje Einarsen 2012-08-15 This groundbreaking study seeks to clarify the concept of universal crimes in international law. It provides a new framework for understanding important features of this complex field of law concerned with the most serious crimes. Central issues include the following: What are the relevant crimes that may give rise to direct criminal liability under international law? Are they currently limited to certain core international crimes? Why should certain crimes be included whereas other serious offences should not? Should specific legal bases be considered more compelling than others for selection of crimes? Terje Einarsen (1960) is a judge at the Gulating High Court. He holds a Ph.D. (Doctor Juris) from the University of Bergen and a masters degree (LL.M.) from Harvard Law School.

International Law Theories Andrea Bianchi 2016-11-10 Two fish are swimming in a pond. 'Do you know what?' the fish asks his friend. 'No, tell me.' 'I was talking to a frog the other day. And he told me that we are surrounded by water!' His friend looks at him with great scepticism: 'Water? Whats that? Show me some water!' International lawyers often find themselves focused on the practice of the law rather than the underlying theories. This book is an attempt to stir up 'the water' that international lawyers swim in. It analyses a range of theoretical approaches to international law and invites readers to engage with different ways of legal thinking in order to familiarize themselves with the water all around us, of which we hardly have any perception. The main aim of this book is to provide interested scholars, practitioners, and students of international law and other disciplines with an introduction to various international legal theories, their genealogies, and possible critiques. By providing an analytical approach to international legal theory, the book encourages readers to enhance their sensitivity to these different approaches and to consider how the presuppositions behind each theory affect analysis, research, and practice in international law. International Law Theories is intended to assist students, scholars, and practitioners in reflecting more generally about how knowledge is formed in the field.

International Law Antonio Cassese 2005 Previous edition, 1st, published in 2001.

International Criminal Law Douglas Guilfoyle 2016 This volume clearly sets out the international criminal law framework, featuring tools to consider and assess the current status of the law and encourage critical analysis of the latest debates affecting the subject area.

The International Law of the Sea Yoshifumi Tanaka 2012-04-05 The law of the sea is a complex and fascinating subject. This textbook explores the subject from the perspective of public international law, covering all the key topics from the legal regimes governing the different jurisdictional zones, to international co-operation for protection of the marine environment. Students interested in international environmental and natural resources law will find chapters on emerging issues such as the conservation and the protection of natural resources and biodiversity in the oceans. It includes student-friendly features such as chapter

overviews, conclusions, figures and tables and further reading sections. Clarity of expression, engaging analysis and comprehensive coverage make this book essential reading for all students of the law of the sea.

Change and Stability in International Law-Making Antonio Cassese 1988-01-01

Diplomatic and Judicial Means of Dispute Settlement Laurence Boisson de Chazournes 2012-10-12 The volume offers an assessment of the interactions between diplomatic and judicial means of settling international disputes in selected areas: territorial questions, international criminal law, international trade law, investment arbitration and human rights. It includes contributions from some of the world's leading academics and practitioners.

The Oxford Handbook of the History of International Law Bardo Fassbender 2012-11-01 The Oxford Handbook of the History of International Law provides an authoritative and original overview of the origins, concepts, and core issues of international law. The first comprehensive Handbook on the history of international law, it is a truly unique contribution to the literature of international law and relations. Pursuing both a global and an interdisciplinary approach, the Handbook brings together some sixty eminent scholars of international law, legal history, and global history from all parts of the world. Covering international legal developments from the 15th century until the end of World War II, the Handbook consists of over sixty individual chapters which are arranged in six parts. The book opens with an analysis of the principal actors in the history of international law, namely states, peoples and nations, international organisations and courts, and civil society actors. Part Two is devoted to a number of key themes of the history of international law, such as peace and war, the sovereignty of states, hegemony, religion, and the protection of the individual person. Part Three addresses the history of international law in the different regions of the world (Africa and Arabia, Asia, the Americas and the Caribbean, Europe), as well as 'encounters' between non-European legal cultures (like those of China, Japan, and India) and Europe which had a lasting impact on the body of international law. Part Four examines certain forms of 'interaction or imposition' in international law, such as diplomacy (as an example of interaction) or colonization and domination (as an example of imposition of law). The classical juxtaposition of the civilized and the uncivilized is also critically studied. Part Five is concerned with problems of the method and theory of history writing in international law, for instance the periodisation of international law, or Eurocentrism in the traditional historiography of international law. The Handbook concludes with a Part Six, entitled "People in Portrait", which explores the life and work of twenty prominent scholars and thinkers of international law, ranging from Muhammad al-Shaybani to Sir Hersch Lauterpacht. The Handbook will be an invaluable resource for students and scholars of international law. It provides historians with new perspectives on international law, and increases the historical and cultural awareness of scholars of international law. It is the standard reference work for the global history of international law.

Cassese's International Law Paola Gaeta 2020-08 Cassese's International Law is a new edition of an established classic. Authors Gaeta, Viuales, and Zappal have built on the legacy of international law luminary Antonio Cassese to offer a thought-provoking and lucid account for today's undergraduates and postgraduates. The authors have refreshed Cassese's original approach, ensuring the book continues to compare the traditional legal position with the developing and evolving law. Advancing areas such as the law of the sea, territorial matters, and international environmental law have been expanded to give proper place to their evolving development, while brand new chapters on international trade and foreign investment have been written to reflect the advancements of these areas. In maintaining the broad structure and approach but providing new material, the authors bring fresh context to Cassese's thinking and provide students with an up-to-date, compelling account of the landscape of international legal thinking.

Brownlie's Principles of Public International Law James Crawford 2019 Serving as a single volume introduction to the field as a whole, this ninth edition of Brownlie's Principles of International Law seeks to present international law as a system that is based on, and helps structure, relations among states and other entities at the international level.

International Law for International Relations Basak Cali 2010 This text provides students with comprehensive coverage that maps out the different ways to approach the study of international law. It explains the institutions and main sources of international law-making and identifies the key topics.

Commentary on the Law of the International Criminal Court Mark Klamburg 2017-04-29

Textbook on International Law Martin Dixon 2007-07-19 The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism.

An Introduction to International Criminal Law and Procedure Robert Cryer 2010-05-27 This market-leading textbook gives an authoritative account of international criminal law, and focuses on what the student needs to know - the crimes that are dealt with by international courts and tribunals as well as the procedures that police the investigation and prosecution of those crimes. The reader is guided through controversies with an accessible, yet sophisticated approach by the author team of four international lawyers, with experience both of teaching the subject, and as negotiators at the foundation of the International Criminal Court and the Rome conference. It is an invaluable introduction for all students of international criminal law and international relations, and now covers developments in the ICC, victims' rights, and alternatives to international criminal justice, as well as including extended coverage of terrorism. Short, well chosen excerpts allow students to familiarise themselves with primary material from a wide range of sources. An extensive package of online resources is also available.

The Prosecutor and the Judge Heikelina Verrijn Stuart 2009 Earlier this year, the Praemium Erasmianum Foundation bestowed its annual award—the Erasmus Prize—on Benjamin Ferencz and Antonio Cassese, two pioneers in the field of international law. Ferencz, a leading American prosecutor, author, and lecturer, was present at the American war crimes trials in Dachau and was the chief prosecutor in the Einsatzgruppen trials in Nuremberg. Like Ferencz, Cassese was a key figure in the development of international criminal law, serving as the first president of the International Criminal Tribunal for the former Yugoslavia and president of the European Committee for the Prevention of Torture, and chairman of the UN Commission of Inquiry into Violation of Human Rights and Humanitarian Law in Darfur. Cassese is currently the president of the Special Court for Lebanon. In *The Prosecutor and the Judge*, Heikelina Verrijn Stuart and Marlise Simons provide in-depth, revealing interviews with these two advocates of international law. Supplementing the interviews are several key articles written by Ferencz and Cassese that highlight the two men's achievements and set the development of international law in context.

Looking to the Future Mahnoush H. Arsanjani 2010-10-25 Throughout his career, Michael Reisman emphasized law's function in shaping the future. In this wide-ranging collection of essays, major thinkers in the international legal field address the goals of the twenty-first century and how international law can address the needs of the world community.

Realizing Utopia Antonio Cassese 2012-03-08 *Realizing Utopia* is a collection of essays by a group of innovative international jurists. Its contributors reflect on some of the major legal problems facing the international community and analyse the inconsistencies or inadequacies of current law. They highlight the elements - even if minor, hidden, or emerging - that are likely to lead to future changes or improvements. Finally, they suggest how these elements can be developed, enhanced, and brought to fruition in the next two or three decades, with a view to achieving an improved architecture of world society or, at a minimum, to reshaping some major aspects of international dealings. Contributions to the book thus try to discern the potential, in the present legal construct of world society, that might one day be brought to light in a better world. As the impact of international law on national legal orders continues to increase, this volume takes stock of how far international law has come and how it should continue to develop. The work features an impressive list of contributors, including many of the leading authorities on international law and several judges of the International Court of Justice.

International Law in a Divided World Antonio Cassese 1986 A general introduction to international law in its political and historical context, this work identifies the ideological motivations behind legal rules and institutions. Covering several issues seldom explored by other commentators, such as the historical evolution of the international community and the fundamental principles governing international laws of economic interaction, the book provides an informative introduction to the complexities of this topic.

The Law of International Responsibility James Crawford 2010-05-20 The law of international responsibility is one of international law's core foundational topics. Written by international experts, this book provides an overview of the modern law of international responsibility, both as it applies to states and to international

organizations, with a focus on the ILC's work.

The Oxford Companion to International Criminal Justice 2009-01-22 *The move to end impunity for human rights atrocities has seen the creation of international and hybrid tribunals and increased prosecutions in domestic courts. The Oxford Companion to International Criminal Justice is the first major reference work to provide a complete overview of this emerging field. Its nearly 1100 pages are divided into three sections. In the first part, 21 essays by leading thinkers offer a comprehensive survey of issues and debates surrounding international humanitarian law, international criminal law, and their enforcement. The second part is arranged alphabetically, containing 320 entries on doctrines, procedures, institutions and personalities. The final part contains over 400 case summaries on different trials from international and domestic courts dealing with war crimes, crimes against humanity, genocide, torture, and terrorism. With analysis and commentary on every aspect of international criminal justice, this Companion is designed to be the first port of call for scholars and practitioners interested in current developments in international justice.*

Outlines and Highlights for International Criminal Law by Antonio Cassese, *Isbn Cram101 Textbook Reviews* 2011-05 *Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780199203109 .*

International Criminal Law the late Antonio Cassese 2008-03-20 *The second edition of International Criminal Law expounds the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law. Professor Cassese brings the political and human contexts to the fore.*

The Sentimental Life of International Law Gerry Simpson 2021 *The Sentimental Life of International Law is about our age-old longing for a decent international society and the ways of seeing, being, and speaking that might help us achieve that aim. This book asks how international lawyers might engage in a professional practice that has become, to adapt a title of Janet Malcolm's, both difficult and impossible. It suggests that international lawyers are disabled by the governing idioms of international lawyering, and proposes that they may be re-enabled by speaking different sorts of international law, or by speaking international law in different sorts of ways. In this methodologically diverse and unusually personal account, Gerry Simpson brings to the surface international law's hidden literary prose and offers a critical and redemptive account of the field. He does so in a series of chapters on international law's bathetic underpinnings, its friendly relations, the neurotic foundations of its underlying social order, its screened-off comic dispositions, its anti-method, and the life-worlds of its practitioners. Finally, the book closes with a chapter in which international law is re-envisioned through the practice of gardening. All of this is put forward as a contribution to the project of making international law, again, a compelling language for our times.*

The Human Dimension of International Law Antonio Cassese 2008-06-19 *This volume collects the most important papers of Antonio Cassese, one of the pre-eminent figures in international criminal justice. The papers offer the definitive statement of Cassese's thought, and a unique insight into some of the key developments in modern international law.*

International Criminal Law: Cases and Commentary Antonio Cassese 2011-02-24 *The decisions presented in the book are helpfully accompanied by short introductions setting out the circumstances of each case and brief commentaries on the importance of the decision and principles illustrated. --Book Jacket.*

International criminal law 2015

International Criminal Law Roger O'Keefe 2015 *'International Criminal Law' presents a full and systematic overview of the field, placing it in the context of wider international law. It offers a high-level, analytical examination with particular reference to the concept of an international crime and the role of domestic courts in prosecuting international crimes.--*

International Criminal Law Antonio Cassese 2015 *Critical Concepts in Law, addresses the acute need for an authoritative reference work that traces the evolution of the emerging discipline of international criminal law. The editors aver that now is the time to take stock and make some sense of the subject's dauntingly vast literature, to identify a canon, and to engage with its key concepts. This four-volume collection assembles the*

best scholarship from the time of Nuremberg and Tokyo to the present day.

The New Humanitarian Law of Armed Conflict Antonio Cassese 1979

Five Masters of International Law Antonio Cassese 2011-03-15 This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

Law, War and Crime Gerry J. Simpson 2013-04-18 From events at Nuremberg and Tokyo after World War II, to the recent trials of Slobodan Milošević and Saddam Hussein, war crimes trials are an increasingly pervasive feature of the aftermath of conflict. In his new book, Law, War and Crime, Gerry Simpson explores the meaning and effect of such trials, and places them in their broader political and cultural contexts. The book traces the development of the war crimes field from its origins in the outlawing of piracy to its contemporary manifestation in the establishment of the International Criminal Court in The Hague. Simpson argues that the field of war crimes is constituted by a number of tensions between, for example, politics and law, local justice and cosmopolitan reckoning, collective guilt and individual responsibility, and between the instinct that war, at worst, is an error and the conviction that war is a crime. Written in the wake of an extraordinary period in the life of the law, the book asks a number of critical questions. What does it mean to talk about war in the language of the criminal law? What are the consequences of seeking to criminalise the conduct of one's enemies? How did this relatively new phenomenon of putting on trial perpetrators of mass atrocity and defeated enemies come into existence? This book seeks to answer these important questions whilst shedding new light on the complex relationship between law, war and crime.

Man's Inhumanity to Man Lal Chand Vohrah 2021-10-18 This volume contains a unique collection of essays on various aspects of current interest within the field of public international law, international criminal law, human rights and humanitarian law. The wide range and topicality of the issues covered bears witness to the vast professional experience of Antonio Cassese, the first President of the ICTY, in whose honour this collection has been compiled, and to the many fields of scholarship in which he has left a permanent mark. Written by a selection of renowned academics and practitioners, Man's Inhumanity to Man offers the reader thought-provoking discussion on the International Criminal Court, the ICTY and International Criminal Tribunal for Rwanda and other aspects of international criminal justice; on truth commissions and amnesties in the aftermath of armed conflicts; on military humanitarian intervention and the development of human rights protection.

International Crimes of State Joseph H. Weiler 1989-01-01

State Sovereignty and International Criminal Law Morten Bergsmo 2012-11-19 'State sovereignty' is often referred to as an obstacle to criminal justice for core international crimes by members of the international criminal justice movement. The exercise of State sovereignty is seen as a shield against effective implementation of such crimes. But it is sovereign States that create and become parties to international criminal law treaties and jurisdictions. They are the principal enforcers of criminal responsibility for international crimes, as reaffirmed by the complementarity principle on which the International Criminal Court (ICC) is based. Criminal justice for atrocities depends entirely on the ability of States to act. This volume revisits the relationship between State sovereignty and international criminal law along three main lines of inquiry. First, it considers the immunity of State officials from the exercise of foreign or international criminal jurisdiction. Secondly, with the closing down of the ad hoc international criminal tribunals, attention shifts to the exercise of national jurisdiction over core international crimes, making the scope of universal jurisdiction more relevant to perceptions of State sovereignty. Thirdly, could the amendments to the ICC Statute on the crime of aggression exacerbate tensions between the interests of State sovereignty and accountability? The

book contains contributions by prominent international lawyers including Professor Christian Tomuschat, Judge Erkki Kourula, Judge LIU Daqun, Ambassador WANG Houli, Dr. ZHOU Lulu, Professor Claus Kre, Professor MA Chengyuan, Professor JIA Bingbing, Professor ZHU Lijiang and Mr. GUO Yang.

*The Defence of Mistake of Law in International Criminal Law Antonio Coco 2022-08-04 The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, *The Defence of Mistake of Law in International Criminal Law* brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.*

Self-Determination of Peoples Antonio Cassese 1995 The self-determination of peoples is a major issue in the world community: both radical and subversive, it serves to grant statehood to oppressed peoples, but also to disrupt existing State structures. This book, the first comprehensive legal account, sets out to trace how this political ideal has turned into an international legal standard. Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law and assesses the extent to which it has had an impact on existing legal norms. This is primarily a legal inquiry which, however, looks at law within its historical and political context and, given its judicial underpinning, makes an important contribution to the study of the interplay of law, history, and politics in international relations.

*Un Law, Fundamental Rights Antonio Cassese 1979-02-10 In its forty-fourth session the General Assembly of the United Nations proclaimed the 1990s as the Decade of International Law . One of the main purposes of the decade is the promotion of effective means for peaceful international dispute settlement, and, especially, strenghtening the role of & respect for the International Court of Justice, the principal judicial organ of the United Nations. The editors of this book contribute to this aim by bringing together a variety of opinions by international legal experts on peaceful dispute settlement. The subject is approached from different angles, ranging from the role of the International Law Commission & the Non-Aligned Movement to human rights & space law disputes, in order to identify areas of international law where room exists for further development of existing means for peaceful settlement of international disputes. A general conclusion which can be drawn from this survey is that the focus of attention should not be aimed primarily at strenghtening the role of the International Court of Justice, e.g. by amending some of its rules or by trying to increase its political acceptability through diplomatic efforts. Instead, the focus should be on small scale improvements within specific areas of international law with an emphasis on the relation between dispute settlement & supervision. Furthermore, it seems essential for a real improvement to give non-governmental organisations or private persons a greater role in upholding the rule of international law, whether in domestic courts or in international fora. This work has been published previously in the *Leiden Journal of International Law*, Special Issue (3 LJIL 90).*

Realizing Utopia Antonio Cassese 2012-03-08 Bringing together 47 essays by prominent international lawyers, this book reflects on major challenges facing international law and focuses on potential changes and improvements. Its aim is helping to construct a better architecture of world society. As international law's importance continues to grow, this book analyses where it is heading.

Principles of International Criminal Law Gerhard Werle 2014 Principles of International Criminal Law is

one of the leading textbooks in the field. This third edition builds on the highly-successful work of the previous editions, setting out the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law.

Cassese's International Criminal Law Antonio Cassese 2013-01-31 Revised edition of: International criminal law, second edition, 2008.
