***Moment Maker* Carlos Enrique Whittaker 2014-04-01** How to Make Every Moment of Every Day Count Every moment of every day, you have a choice to make. You can either let the minutes pass you by or you can claim them for what they are: opportunities to unlock the full depth of life's potential. For Carlos Whittaker, renowned blogger, musician and worship leader, and husband and dad, living deliberately is a way of life. Making moments that are significant, memorable, or impactful are a part of how he navigates each day, and it has forever changed the landscape of his story. In *Moment Maker*, Carlos explains his methodology for living intentionally and claiming moments that touch the lives of others, whether that be his family, his friends, his colleagues, or total strangers. Carlos isn't asking anyone to make a big investment in time, energy, or money. He is simply uncovering the investment of attention. You don't have to buy tickets to special events or orchestrate elaborate surprises. You just have to be aware—of your surroundings, the people you encounter, the things that interest those important to you, the opportunities that present themselves—and be prepared to seize those moments and see lives changed.

Wake Up, Woods Michael A. Homoya 2019-10 Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and

bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Standard Acupuncture Nomenclature 1993 Now in its second edition, *Standard Acupuncture Nomenclature* has been extensively revised following a number of consultations with experts representing all the major traditions of acupuncture. The nomenclature covers the 361 classical acupuncture points organized according to the fourteen meridians. Each entry gives the standardized name of the point in its three elements: an alphanumeric code derived from the English language translation of the meridian name the Chinese phonetic alphabet (Pinyin) name, and the Han (Chinese) character. The original form of the writing is shown first followed by a simplified form of the character. Each entry also provides a brief comment on the point explaining the meaning of the Han character and the significance of the point's location. Use of the nomenclature is facilitated by the inclusion of two indexes. The first lists the equivalent names and code names of the acupuncture points as used in English French Japanese Korean and Vietnamese. The second lists the Han characters for the 361 points.

Crap CVs Jenny Crompton 2014-10-09 Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Attached to my letter is a copy of my CV and his death certificate. *Crap CVs* is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant

truth-twisting and, of course, outright lies.
