Into the Magic Shop — James R. Doty, MD 2016-02-02 The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth's practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth's most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, *Into the Magic Shop* shows us how we can fundamentally change our lives by first changing our brains and our hearts.

The Oxford Handbook of Compassion Science — Emma M. Seppälä 2017-09-26 How do we define compassion? Is it an emotional state, a motivation, a dispositional trait, or a cultivated attitude? How does it compare to altruism and empathy? Chapters in this Handbook present critical scientific evidence about compassion in numerous conceptions. All of these approaches to thinking about compassion are valid and contribute importantly to understanding how we respond to others who are suffering. Covering multiple levels of our lives and self-concept, from the individual, to the group, to the organization and culture, *The Oxford Handbook of Compassion Science* gathers evidence and models of compassion that treat the subject of compassion science with careful scientific scrutiny and concern. It explores the motivators of compassion, the effect on physiology, the co-occurrence of wellbeing, and compassion training interventions. Sectioned by thematic approaches, it pulls together basic and clinical research ranging across neurobiological, developmental, evolutionary, social, clinical, and applied areas in psychology such as business and education. In this sense, it comprises one of the first multidisciplinary and systematic approaches to examining compassion from multiple perspectives and frames of reference. With contributions from well-established scholars as well as young rising stars in the field, this Handbook bridges a wide variety of diverse perspectives, research methodologies, and theory, and provides a foundation for this new and rapidly growing field. It should be of great value to the new generation of basic and applied researchers examining compassion, and serve as a catalyst for academic researchers and students to support and develop the modern world.

Don't Worry, Little Crab Chris Haughton 2020 From the award-winning creator of *Shh! We Have a Plan* comes a vibrantly colorful story about mustering the courage to try something new. Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splash-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead -- and help them discover the brilliant worlds that await when they take the plunge.

The Quiet Light Louis de Wohl 2018-12-01 The famous novelist Louis de Wohl presents a stimulating historical novel about the great St. Thomas Aquinas, set against the violent background of the Italy of the Crusades. He tells the intriguing story of St. Thomas who—by taking a vow of poverty and joining the Dominicans—defied his illustrious, prominent family's ambition for him to have great power in the Church. The battles and Crusades of the 13th century and the ruthlessness of the excommunicated Emperor Frederick II play a big part in the story, but it is Thomas of Aquino who dominates this book. De Wohl succeeds notably in portraying the exceptional quality of this man, a fusion of mighty intellect and childlike simplicity. A pupil of St. Albert the Great, the humble Thomas—through an intense life of study, writing, prayer, preaching and contemplation—ironically rose to become the influential figure of his age, and he later was proclaimed by the Church as the Angelic Doctor. As in all of his novels about great saints of the church, Louis de Wohl weaves an intricate colorful tapestry of love, violence and piety to bring to life a tremendous historical figure and the fascinating period in which he lived. Louis de Wohl was a distinguished and internationally respected Catholic writer whose books on saints have been best-sellers worldwide. Other available titles include *Lay Siege to Heaven*, *Set All Afire* and *Citadel of God*. Sixteen of his books were made into films.

Bleak House I Dickens C. *Bleak House* opens in the twilight of foggy London, where fog grips the city most densely in the Court of Chancery. The obscure case of Jarndyce and Jarndyce, in which an inheritance is gradually devoured by legal costs, the romance of Esther Summerson and the secrets of her origin, the sleuthing of Detective Inspector Bucket and the fate of Jo the crossing-sweeper, these are some of the lives Dickens invokes to portray London society, rich and poor, as no other novelist has done.

The author introduces important new concepts, particularly the concepts of the processing phase of sexual functioning and of negative self-hypnosis.

Saint Joan Louis De Wohl 2001 This volume in the Vision Books series of saints for youth combines a world famous Catholic novelist, Louis de Wohl, with one of the most thrilling and dramatic saint's lives in history, St. Joan of Arc. De Wohl uses his famed narrative skill to tell young people about the brave teenage French girl who had visions and led armies in battle, but also about how her entire life testifies to the amazing power of God's grace. It's all here: how Joan, a humble maiden in an insignificant town, was told by St. Michael the Archangel, St. Catherine, and St. Margaret to lead the French in battle against the English; how she finally succeeded in convincing the French of the truth of her mission; how she met with fantastic success but was betrayed, captured, and imprisoned; and finally, how she suffered through a politically motivated trial for heresy and was burned at the stake. Best of all, de Wohl is not interested solely in the external details of Joan's life, but in Joan's all-encompassing love for God, which informed all her courageous actions from beginning to end. You'll not only thrill to Joan's heroism; your heart will delight in her example of loving surrender to God's will. Every detail of her life will ring out to you as a joyful witness to the grace of God. Illustrated.

Sadhana Anthony De Mello 1984-09-01 Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

Assassination Generation Lieutenant Colonel Dave Grossman 2016-11-15 The author of the 400,000-copy bestseller On Killing reveals how violent video games have ushered in a new era of mass homicide--and what we must do about it.

Paducah, Kentucky, 1997: a 14-year-old boy shoots eight students in a prayer circle at his school. Littleton, Colorado, 1999: two high school seniors kill a teacher, twelve other students, and then themselves. Utoya, Norway, 2011: a political extremist shoots and kills sixty-nine participants in a youth summer camp. Newtown, Connecticut, 2012: a troubled 20-year-old man kills 20 children and six adults at the elementary school he once attended. What links these and other horrific acts of mass murder? A young person's obsession with video games that teach to kill. Lt. Col. Dave Grossman, who in his perennial bestseller On Killing revealed that most of us are not "natural born killers" -- and who has spent decades training soldiers, police, and others who keep us secure to overcome the intrinsic human resistance to harming others and to use firearms responsibly when necessary -- turns a laser focus on the threat posed to our society by violent video games. Drawing on crime statistics, cutting-edge social research, and scientific studies of the teenage brain, Col. Grossman shows how video games that depict antisocial, misanthropic, casually savage behavior can warp the mind -- with potentially deadly results. His book will become the focus of a new national conversation about video games and the epidemic of mass murders that they have unleashed.

Killing It Camas Davis 2019-07-23 Camas Davis was at an unhappy crossroads. A longtime magazine editor, she had left New York City to pursue a simpler life in her home state of Oregon, with the man she wanted to marry, and taken an appealing job at a Portland magazine. But neither job nor man delivered on her dreams, and in the span of a year, Camas was unemployed, on her own, with nothing to fall back on. Disillusioned by the decade she had spent as a lifestyle journalist, advising other people how to live their best lives, she had little idea how best to live her own life. She did know one thing: She no longer wanted to write about the genuine article, she wanted to be it. So when a friend told her about Kate Hill, an American woman living in Gascony, France who ran a cooking school and took in strays in exchange for painting fences and making beds, it sounded like just what she needed. She discovered a forgotten credit card that had just enough credit on it to buy a plane ticket and took it as kismet. Upon her arrival, Kate introduced her to the Chapolard brothers, a family of Gascon pig farmers and butchers, who were willing to take Camas under their wing, inviting her to work alongside them in their slaughterhouse and cutting room. In the process, the Chapolards inducted her into their way of life, which prizes pleasure, compassion, community, and authenticity above all else, forcing Camas to question everything she'd believed about life, death, and dinner. So begins Camas Davis's funny, heartfelt, searching memoir of her unexpected journey from knowing magazine editor to humble butcher. It's a story that takes her from an eye-opening stint in rural France where deep artisanal craft and whole-animal gastronomy thrive despite the rise of mass-scale agribusiness, back to a Portland in the throes of a food revolution, where Camas attempts--sometimes successfully, sometimes not--to translate much of this old-world craft and way of life into a new world setting. Along the way, Camas learns what it really means to pursue the real thing and dedicate your life to it.

Between them an unspoken allegiance is formed that will sustain each through the years as the Reverend Mother seeks to combat her growing spiritual aridity and as Anna develops the strength to resist the conventional demands of her background.
