Now and Then We Time Travel Fraser A. Sherman 2016-12-28 More than 400 films and 150 television series have featured time travel--stories of rewriting history, lovers separated by centuries, journeys to the past or the (often dystopian) future. This book examines some of the roles time travel plays on screen in science fiction and fantasy. Plot synopses and credits are listed for films and TV series from England, Canada, the UK and Japan, as well as for TV and films from elsewhere in the world. Tropes and plot elements are highlighted. The author discusses philosophical questions about time travel, such as the logic of timelines, causality (what's to keep time-travelers from jumping back and correcting every mistake?) and morality (if you correct a mistake, are you still guilty of it?).

Deep Secrets Niobe Way 2013-05-06 Boys are emotionally illiterate and don't want intimate friendships. In this empirically grounded challenge to our stereotypes about boys and men, Niobe Way reveals the intense intimacy among teenage boys especially during early and middle adolescence. Boys not only share their deepest secrets and feelings with their closest male friends, they claim that without them they would go wacko. Yet as boys become men, they become distrustful, lose these friendships, and feel isolated and alone. Drawing from hundreds of interviews conducted throughout adolescence with black, Latino, white, and Asian American boys, *Deep Secrets* reveals the ways in which we have been telling ourselves a false story about boys, friendships, and human nature. Boys' descriptions of their male friendships sound more like something out of *Love Story* than *Lord of the Flies*. Yet in late adolescence, boys feel they have to man up by becoming stoic and independent. Vulnerable emotions and intimate friendships are for girls and gay men. No homo becomes their mantra. These findings are alarming, given what we know about links between friendships and health, and even longevity. Rather than a boy crisis, Way argues that boys are experiencing a crisis of connection because they live in a culture where human needs and capacities are given a sex (female) and a sexuality (gay), and thus discouraged for those who are neither. Way argues that the solution lies with exposing the inaccuracies of our gender stereotypes and fostering these critical relationships and fundamental human skills.
