Catherine Lim Collection Jim Algie 2011-04-15 Bizarre Thailand takes readers off the well-rutted road of tourist hotspots into the darkest and sexiest hinterlands. Welcome to a twilight zone where travellers become soldiers and cowboys, a black magician courts politicians and film stars, sacred tortoises mate on the streets of a small town, and Fertility Goddesses are wooed with massive phalluses. In this strange land, nothing is what it seems: a prison becomes a tourist attraction, a 20-storey robot is a building, a man becomes a beauty queen, a Buddhist temple turns into hell on earth, a loving wife is immortalized as the most famous and ferocious of all phantoms, and a serial killer's corpse is reincarnated as a museum exhibit. Bizarre Thailand takes an irreverent look at how the profound, profane and frankly quite odd intertwine with the rhythms and flows of everyday Thai life, paying homage to the quintessential culture of one of Southeast Asia's most captivating destinations.

Modern Architecture Kuwait Roberto Fabri 2016 First systematic analysis of modern architecture in Kuwait based on several years of research. From the late 1940s at the inception of the oil exporting industry, via political independence in 1961, through to the late 1980s when Kuwait was invaded, the citystate experienced an extraordinary social and civic transformation, deeply inscribed in its built environment. The old coastal town was radically transformed through architecture and urban planning in the process of gaining wealth and autonomy. Important foreign and local architects found here the possibility to expand their professional horizons and the challenge to compose an entire city, creating important examples of Late Modern Architecture during these four decades. This publication is based on several years of multidisciplinary research, featuring a repertoire of more than 150 buildings, all fully illustrated and analyzed in order to understand the dynamics of change and innovation they represent. By reading the presence of the building in the urban context at the architectural level, this volume examines a wide range of buildings selected for their specific qualitative aspects, as examples of particular design methodologies or typologies, or else for the various forms of adaptation to the peculiarities of local environmental conditions.

Accessible Technology and the Developing World Michael Ashley Stein 2021-10-13 When digital content and technologies are designed in a way that is inaccessible for persons with disabilities, they are locked out of commerce, education, employment, and access to government information. In developing areas of the world, as new technical infrastructures are being built, it is especially important to ensure that accessibility is a key design goal. Unfortunately, nearly all research on Information and Communication Technology (ICT) accessibility and innovation for persons with disabilities—whether from the legal, technical, or development fields—has focused on developed countries, with very little being written about developing world initiatives. Accessible Technology and the Developing World aims to change this, by bringing increased attention to ICT accessibility in developing areas. This book brings together a unique combination of contributors with diverse disciplinary backgrounds, including authors from well-known non-governmental organizations, significant United Nations entities, and universities in both the developing and developed world. Together, they present a unique and much needed review of this critical and growing area of work, and primarily address three core themes - the lack of attention given to innovations taking place in the developing world, the need to ensure that infrastructures in the Global South do not present barriers to people with disabilities, and the need to exercise caution when applying techniques from the Global North to the Global South that won't transfer effectively. This book will be of use to researchers in the fields of civil rights, development studies, disability rights, disability studies, human-computer interaction and accessibility, human rights, international law, political science, and universal design.

The Elephant Tourism Business Eric Laws 2020-11-23 Elephant tourism is a growing activity in many countries across Asia and Africa and is popular with tourists from all parts of the world. Elephant tourism has grown rapidly, providing the only viable way for elephants and their owners to survive since the banning of logging. Old logging camps have been developed into sanctuaries for some elephants, but many other camps were established as entertainment centres, resulting in serious welfare issues for the elephants and their mahouts. The profits from elephant tourism in Asia have encouraged African operators to follow a similar business model. This book draws attention to the need for a comprehensive and rigorous focus on local solutions to improve the welfare of captive elephants, their mahouts and local residents, and to enhance tourists' experiences of elephant tourism.

Targeting Zero Simon Sturgis 2019-06-27 Embodied and Whole Life Carbon will change the way buildings are designed, yet carbon emissions associated with the construction and life of buildings are not yet wholly understood by the profession. Energy is assumed to be the province of services engineers, yet energy from materials is as big an issue. Architects have the opportunity to take the lead in redefining how buildings are designed to achieve a low carbon future.

When There Were Birds Roy Adkins 2021-11-11 Birds are a joy and solace in troubled times, as well as a reminder of past experiences and a symbol of hope for the future. For centuries, they were also seen as a source of food, feathers and even fuel, and being so numerous, many were persecuted as pests. When There Were Birds is a social history of Britain that charts the complex connections between people and birds, set against a background of changes in the landscape and evolving tastes, beliefs and behaviour. Birds were once key elements of the nation's history, traditions and sports, and this gave rise to a rich

legacy of literature, language and myths. No other group of animals has had such a complex and lengthy relationship with humankind. Birds have been kept in cages as pets, taught to speak and displayed as trophies. More practically, they have been used to tell the time, predict the weather, foretell marriages, provide unlikely cures for ailments, convey messages and warn of poisonous gases. Although very familiar, birds have often seemed strange, sinister and alarming. With their ability to fly, they bridged the gap between the earth and the heavens, and superstitions were rife because they were presumed to be linked to the supernatural. When *There Were Birds* draws together many disparate, forgotten strands to present a story that is an intriguing and unexpectedly significant part of our heritage.

Africa State of Mind Ekow Eshun 2020-04-07 A vibrant photographic anthology that presents the work of a generation of image makers who are forging new visions of Africa. *Africa State of Mind* gathers together the work of an emergent generation of photographers from across the continent, exploring Africa as a psychological space as much as a geographical one. Both a summation of new photographic practice from the last decade and a compelling survey of the ways in which contemporary African photographers are engaging with ideas of "Africanness," *Africa State of Mind* is a timely collection of those photographers seeking to capture the experience of what it means to "be African." Presented in four thematic sections—"Hybrid Cities," "Inner Landscapes," "Zones of Freedom," and "Myth and Memory"—each part presents selections of work by a new wave of African photographers who are looking both outward and inward: capturing life among the sprawling cities of the continent, turning the continent's history into the source of resonant new myths, and exploring questions of gender, sexuality, and identity. With over 300 photographs by more than fifty photographers, *Africa State of Mind* is a mesmerizing survey of the most dynamic scenes in contemporary photography and an introduction to the creative figures making them.

The Secret Elephants Gareth Patterson 2012-09-28 The elephants of the Knysna forest have long been the subject of mystery and conjecture. Over the years they have taken on an almost mythical quality, with many doubting whether they existed at all. In 1994 the local forestry department maintained that there was only one surviving Knysna elephant, the seldom seen female known as The Matriarch. The Knysna elephant was thus described as 'functionally extinct'. This was the official stance until September 2000 when forest guard Wilfred Oraai encountered and photographed a young bull from a distance of some thirty metres. The question arose: who was its mother? And, indeed, who was its father? In 2001 Gareth Patterson began an independent study of the Knysna elephant. For the next seven years he covered thousands of kilometres on foot, following ancient elephant paths through the dense Afromontane forest and the surrounding mountain fynbos. He found abundant signs to suggest that, far from dying out, the Knysna elephants are, quietly and secretly, holding their own. Patterson's fieldwork, and his dna research in collaboration with conservation geneticist Lori Eggert, established that at least five young females exist, lending support to Patterson's growing evidence that the Knysna forest and its surroundings are home to a small herd of young elephants. *The Secret Elephants* is the story of these remarkable animals that fought their way back from the brink of extinction without any help from humankind.

On the Night Joey Ramone Died Jim Algie 2018-02-06 Can a fallen rock star rise again? That's the question Lek is forced to ask himself on the night Joey Ramone died. Born on an American military base in Thailand and coming of age during what Francis Ford Coppola called "the first rock and roll war," the Thai musician has to confront his demons of addiction, his poisonous divorce, his deteriorating relationship with his musician son (named after Dee Dee Ramone) and his new career as a boy band producer, as he begins his journey on the rocky road to making a comeback. In the second interconnected novella, "The Genocide Girls and Boys," he meets a younger woman from Norway who is fascinated by extreme metal and the Cambodian genocide. She inspires him to start working on a new album. Smart, pretty and deeply troubled, Edana will push both his creative and self-destructive streaks to the brink, in a tale marinated in drugs and liquor, and set to a soundtrack that melds everyone from Cannibal Corpse to Chet Baker, and the Carpenters to the Clash, the Replacements, Rolling Stones and the Jesus and Mary Chain. The first paperback edition of the book contains a new 130-page nonfiction section of "Rock Writings and Musical Memoirs" that mixes the author's music journalism with tales from his own career as a trailblazer in Canada's indie-rock scene. "When Punk Turned 40" denotes the movement's backstory, while "My Close Encounters with Rock Stars," features Joe Strummer, the Pixies, Pearl Jam, Soundgarden, Mudhoney, the Jesus and Mary Chain, Ice-T, the Gun Club, Teenage Head, Jim Carroll, Leonard Cohen and "Assholes in Headlining Bands I Barely Met Yet Still Despise." The grand finale, "My Last Show and Worst Onstage Disaster," chronicles a near-death experience the author had during his final gig in Berlin.

Mr Five Per Cent Jonathan Conlin 2019-01-10 Winner of the BAC Wadsworth Prize for Business History 2020 When Calouste Gulbenkian died in 1955 at the age of 86, he was the richest man in the world, known as 'Mr Five Per Cent' for his personal share of Middle East oil. The son of a wealthy Armenian merchant in Istanbul, for half a century he brokered top-level oil deals, concealing his mysterious web of business interests and contacts within a labyrinth of Asian and European cartels, and convincing governments and oil barons alike of his impartiality as an 'honest broker'. Today his name is known principally through the Gulbenkian Foundation in Lisbon, to which his spectacular art collection and most of his vast wealth were bequeathed. Gulbenkian's private life was as labyrinthine as his business dealings. He insisted on the highest 'moral values', yet ruthlessly used his wife's charm as a hostess to further his career, and demanded complete obedience from his family, whom he monitored obsessively. As a young man he lived a champagne lifestyle, escorting actresses and showgirls, and in later life - on doctor's orders - he slept with a succession of discreetly provided young women. Meanwhile he built up a superb art collection which included Rembrandts and other treasures sold to him by Stalin from the Hermitage Museum. Published to mark the 150th anniversary of his birth, *Mr Five Per Cent* reveals Gulbenkian's complex and many-sided existence. Written with full access to the Gulbenkian Foundation's archives, this is the fascinating story of the man who more than anyone else helped shape the modern oil industry.

Quiet Time Program 2020-01-07 "Therefore do not be like them. For your Father knows the things you have need of before you ask Him." Matt 6:8 It is with joy and gratitude to God that St. Mark's Coptic Orthodox Church, Sydney, presents the latest instalment in its 'Quiet Time' series. Year after year, there are countless experiences of youth whose lives have been transformed by spending some moments in solitude with God, contemplating on His word. One of the beautiful things about spending quiet time with the Lord, is that is a dynamic, ever-changing experience. In view of this, the structure of the Quiet Time readings this year has been changed. As opposed to previous years - where there was a daily reading program starting on January 1st - the readings will be organised into one or two week blocks. Each block will revolve around a particular theme, and each reading will be accompanied by a meaningful contemplation. It is our prayer that once again, these readings may speak directly into our hearts in this coming year. May the Lord provide the exact messages that we need to hear in this coming year, even before we ask Him.
