*Hitler Fredrick Carl Redlich 2000 Redlich draws upon Hitler's medical records to show what transformed the dictator from an aimless, friendless, and vaguely resentful youth into the most destructive force of the 20th century. 22 illustrations.*

*Reconceptualising Conversion Zeba A. Crook 2004-01-01 Der Autor nimmt die Diskussion der Konversion in der Antike neu auf und hinterfragt die bisher vorausgesetzte psychologische Kontinuität zwischen antikem und modernem Menschen. Im Unterschied dazu bietet er ein Modell, das sich an den Denkvoraussetzungen der Antike orientiert. In diesem Zusammenhang wird auch die "Bekehrung" des Paulus neu gedeutet.*

*Flashpoints George Friedman 2015-01-27 A major new book by New York Times bestselling author and geopolitical forecaster George Friedman (The Next 100 Years), with a bold thesis about coming events in Europe. This provocative work examines "flashpoints," unique geopolitical hot spots where tensions have erupted throughout history, and where conflict is due to emerge again. "There is a temptation, when you are around George Friedman, to treat him like a Magic 8 Ball." —The New York Times Magazine With remarkable accuracy, George Friedman has forecasted coming trends in global politics, technology, population, and culture. In Flashpoints, Friedman focuses on Europe—the world's cultural and power nexus for the past five hundred years . . . until now. Analyzing the most unstable, unexpected, and fascinating borderlands of Europe and Russia—and the fault lines that have existed for centuries and have been ground zero for multiple catastrophic wars—Friedman highlights, in an unprecedentedly personal way, the flashpoints that are smoldering once again. The modern-day European Union was crafted in large part to minimize built-in geopolitical tensions that historically have torn it apart. As Friedman demonstrates, with a mix of rich history and cultural analysis, that design is failing. Flashpoints narrates a living history of Europe and explains, with great clarity, its most volatile regions: the turbulent and ever-shifting land dividing the West from Russia (a vast area that currently includes Ukraine, Belarus, and Lithuania); the ancient borderland between France and Germany; and the Mediterranean, which gave rise to Judaism and Christianity and became a center of Islamic life. Through Friedman's seamless narrative of townspeople and rivers and villages, a clear picture of regions and countries and history begins to emerge. Flashpoints is an engrossing analysis of modern-day Europe, its remarkable past, and the simmering fault lines that have awakened and will be pivotal in the near future. This is George Friedman's most timely and, ultimately, riveting book.*

*Germany as a Culture of Remembrance Alon Confino 2017-03-01 An acknowledged authority on German history and memory, Alon Confino presents in this volume an original critique of the relations between nationhood, memory, and history, applied to the specific case of Germany. In ten essays (three never before published and one published only in German), Confino offers a distinct view of German nationhood in particular and of nationhood in general as a product of collective negotiation and exchange between the many memories that exist in the nation. The first group of essays centers on the period from 1871 to 1990 and*

*explores how Germans used conceptions of the local, or Heimat, to identify what it meant to be German in a century of ideological upheavals. The second group of essays comprehensively critiques and analyzes the ways laypersons and scholars use the notion of memory as a tool to understand the past. Arguing that the case of Germany contains particular characteristics with broader implications for the way historians practice their trade, Germany as a Culture of Remembrance examines the limits and possibilities of writing history.*

*Auschwitz Updated Edition Deborah Dwork 2002-04-30 A riveting examination in words and photos of Auschwitz, from its roots as a violent market town to the concentration camps built during World War II, provides a compelling conclusion on the evolution of a deadly killing site.*

*Hitler's Shadow Richard Breitman 2011-04-01 This report is based on findings from newly-declassified decades-old Army and CIA records released under the Nazi War Crimes Disclosure Act of 1998. These records were processed and reviewed by the National Archives-led Nazi War Crimes and Japanese Imperial Government Records Interagency Working Group. The report highlights materials opened under the Act, in addition to records that were previously opened but had not been mined by historians and researchers, including records from the Office of Strategic Services (a CIA predecessor), dossiers of the Army Staff's Intelligence Records of the Investigative Records Repository, State Dept. records, and files of the Navy Judge Advocate General. This is a print on demand report.*

*Berlin Diary William L. Shirer 2011-10-23 The author of the international bestseller *The Rise and Fall of the Third Reich* offers a personal account of life in Nazi Germany at the start of WWII. By the late 1930s, Adolf Hitler, Führer of the Nazi Party, had consolidated power in Germany and was leading the world into war. A young foreign correspondent was on hand to bear witness. More than two decades prior to the publication of his acclaimed history, *The Rise and Fall of the Third Reich*, William L. Shirer was a journalist stationed in Berlin. During his years in the Nazi capital, he kept a daily personal diary, scrupulously recording everything he heard and saw before being forced to flee the country in 1940. *Berlin Diary* is Shirer's first-hand account of the momentous events that shook the world in the mid-twentieth century, from the annexation of Austria and Czechoslovakia to the fall of Poland and France. A remarkable personal memoir of an extraordinary time, it chronicles the author's thoughts and experiences while living in the shadow of the Nazi beast. Shirer recalls the surreal spectacles of the Nuremberg rallies, the terror of the late-night bombing raids, and his encounters with members of the German high command while he was risking his life to report to the world on the atrocities of a genocidal regime. At once powerful, engrossing, and edifying, William L. Shirer's *Berlin Diary* is an essential historical record that illuminates one of the darkest periods in human civilization.*
