Carpentry and Joinery 2 Brian Porter 2012-06-14 Carpentry and Joinery 2 is the second in a series of three books, which together provide an authoritative and thoroughly practical guide to carpentry and joinery for students following City & Guilds and CITB courses, NVQ candidates, and students working towards an Institute of Carpenters qualification. This book is also ideal for a wide range of amateur and professional woodworkers. Volume 2 builds on the fundamental knowledge introduced in volume 1, by covering more advanced topics and procedures, including machine tools. Essential 'back-up' topics are presented throughout the text to revise the key aspects covered in volume 1. The reader is shown how to apply this basic theory to actual carpentry and joinery practice in a highly illustrated, easily accessible text. The third edition has been fully updated in line with changes to the Building Regulations and current legislation, the third edition also incorporates developments in current best practice, with a comprehensive match to the latest qualifications in Wood Occupations.

Manual of First and Second Fixing Carpentry Les Goring 2010 Beginning with the fundamentals of carpentry work within a domestic construction setting, this book outlines which tools are required, and examines their care and proper use before covering the interpretation of technical drawings. It goes on to explain a wide range of first-fixing operations prior to plastering, and second-fixing operations after plastering. Each chapter covers the subject in great detail, with step-by-step illustrations and text to provide the reader with a complete picture of the sequence of work required to carry out each job. Goring's Manual of First and Second Fixing Carpentry has been updated to take recent developments in the building trades into account, and is also fully up to date with current industry best practice. Printed in full colour throughout, new chapter has been incorporated to address the sharpening of traditional saws. The breadth of coverage and easily accessible 'how-to' approach makes this book an ideal resource for apprentices taking NVQs and those following Construction Awards within the Wood Occupations from City & Guilds/Construction Skills. The technical detail and practical focus ensures that this book will be a vital purchase for all students, and an essential reference for any experienced carpenter or joiner.
