Crime and Spy Jazz on Screen, 1950-1970 Derrick Bang 2020-04-01 Henry Mancini's Peter Gunn theme. Lalo Schifrin's Mission: Impossible theme. John Barry's arrangement of the James Bond theme. These iconic melodies have remained a part of the pop culture landscape since their debuts in the late 1950s and early '60s: a "golden decade" that highlighted an era when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies and heist-minded criminals. Hundreds of additional films and television shows made during this period were propelled by similarly swinging title themes and underscores, many of which have (undeservedly) faded into obscurity. This meticulously researched book traces the embryonic use of jazz in mainstream entertainment from the early 1950s--when conservative viewers still considered this genre "the devil's music"--to its explosive heyday throughout the 1960s. Fans frustrated by the lack of attention paid to jazz soundtrack composers--including Jerry Goldsmith, Edwin Astley, Roy Budd, Quincy Jones, Dave Grusin, Jerry Fielding and many, many others--will find solace in these pages (along with all the information needed to enhance one's music library). The exploration of action jazz continues in this book's companion volume, Crime and Action Jazz on Screen Since 1971.

Renaissance Truth and the Latin Language Turn Ann Moss 2003 This study provides an entirely new look at an era of radical change in the history of West European thought, the period between 1480 and 1540, mainly in France and Germany. The book's main thesis is that the Latin language turn was not only concurrent with other aspects of change, but was a fundamental instrument in reconfiguring horizons of thought, reformulating paradigms of argument, and rearticulating the relationship between fiction and truth.

Goodmans Hotel Alan Keslian 2009-12-23 Goodmans Hotel, a full length novel, is a gay love story set in 1990s London. Mark, a City high-flyer, is irresistibly attracted to Tom, a manual worker from a tough neighbourhood. Both men have been marked by past ordeals. Conflict between powerful cabals in the City firm causes Mark to leave, with a generous pay off. Tom's boss, Andrew, a determinedly independent small businessman, convinces him he should put all his resources into setting up a gay guest house, the 'Goodmans Hotel' of the title. There he hopes for release from the heartlessly competitive norms of his old working life. He takes in an eighteen year old runaway, Darren, who is escaping from his parents' religious bigotry. Mark comes to think of Tom, Darren and Andrew as his 'family'. A crisis forces Mark and Tom apart, until eventually the family are reconciled and reunited in the final chapter, their understanding of life deepened by the challenges they have faced.

Studying Early Printed Books, 1450-1800 Sarah Werner 2019-02-26 A comprehensive resource to understanding the hand-press printing of early books Studying Early Printed Books, 1450 - 1800 offers a guide to the fascinating process of how books were printed in the first centuries of the press and shows how the mechanics of making books shapes how we read and understand them. The author offers an insightful overview of how books were made in the hand-press period and then includes an in-depth review of the specific aspects of the printing process. She addresses questions such as: How was paper made? What were different book formats? How did the press work? In addition, the text is filled with illustrative examples that demonstrate how understanding the early processes can be helpful to today's researchers. Studying Early Printed Books shows the connections between the material form of a book (what it looks like and how it was

made), how a book conveys its meaning and how it is used by readers. The author helps readers navigate books by explaining how to tell which parts of a book are the result of early printing practices and which are a result of later changes. The text also offers guidance on: how to approach a book; how to read a catalog record; the difference between using digital facsimiles and books in-hand. This important guide: Reveals how books were made with the advent of the printing press and how they are understood today Offers information on how to use digital reproductions of early printed books as well as how to work in a rare books library Contains a useful glossary and a detailed list of recommended readings Includes a companion website for further research Written for students of book history, materiality of text and history of information, Studying Early Printed Books explores the many aspects of the early printing process of books and explains how their form is understood today.

Nothing Begins with N Pat Belanoff 1991 The 16 essays in this book provide a theoretical underpinning for freewriting. Sheryl I. Fontaine opens the book with a description of the organization, purpose, and content of students' 10-minute unfocused freewriting. Pat Belanoff discusses the relationship between skilled and unskilled student writers. Richard H. Haswell analyzes forms of freewriting. Lynn Hammond describes the focused freewriting strategies used in legal writing and in the analysis of poetry. Joy Marsella and Thomas L. Hilgers suggest ways of teaching freewriting as a heuristic. Diana George and Art Young show what teachers learned about the writing abilities of three engineering students through freewriting journals. Anne E. Mullin seeks to determine whether freewriting lives up to claims made for it. Barbara W. Cheshire assesses the efficacy of freewriting. James W. Pennebaker checks the short- and long-term effects of freewriting on students' emotional lives. Ken Macrorie notes that freewriting means being freed to use certain powers. Peter Elbow shows how authors use freewriting. Robert Whitney tells "why I hate to freewrite." Karen Ferro considers her own freewriting, showing how it leads to a deeper self-understanding. Chris Anderson discusses the qualities in freewriting that we should maintain in revision. Burton Hatlen shows the parallels between writing projective verse and freewriting. Sheridan Blau describes the results of experiments with invisible writing.

Crime and Spy Jazz on Screen Since 1971 Derrick Bang 2020-04-01 Henry Mancini's Peter Gunn theme. Lalo Schifrin's Mission: Impossible theme. Isaac Hayes' theme from Shaft. These iconic melodies have remained a part of the pop culture landscape since their debuts back when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies and heist-minded criminals. Hundreds of additional films and television shows made from the mid-1950s and beyond have been propelled by similarly swinging title themes and underscores, many of which have (undeservedly) faded into obscurity. This meticulously researched book begins with Hayes' game-changing music for Shaft, and honors the careers of traditional jazz composers who--as the 1970s gave way to the '80s and beyond--resolutely battled against the pernicious influx of synth, jukebox scores and a growing corporate disinterest in lavish ensembles. Fans frustrated by the lack of attention paid to jazz soundtrack composers--including Mort Stevens, Laurie Johnson, Mike Post, Earle Hagen, David Shire, Elmer Bernstein and many, many others--will find solace in these pages (along with all the information needed to enhance one's music library). But this is only half the story; the saga's origins are discussed in this book's companion volume, *Crime and Action Jazz on Screen: 1950-1970*.

Gravity's Rainbow Thomas Pynchon 2012-06-13 Winner of the 1974 National Book Award "A screaming comes across the sky. . ." A few months after the Germans' secret V-2 rocket bombs begin falling on London, British Intelligence discovers that a map of the city pinpointing the sexual conquests of one Lieutenant Tyrone Slothrop, U.S. Army, corresponds identically to a map showing the V-2 impact sites. The implications of this discovery will launch Slothrop on an amazing journey across war-torn Europe, fleeing an international cabal of military-industrial superpowers, in search of the mysterious Rocket 00000, through a wildly comic extravaganza that has been hailed in The New Republic as "the most profound and accomplished American novel since the end of World War II."

Educating for Business, Public Service and the Social Sciences Peter Groenewegen 2009-09-11 Tertiary economics and business education started early in Australia but was not organised on a faculty basis until the 20th century. Commerce and business teaching at Sydney University began in 1906, and from 1920 was taught in the Faculty of Economics, together with public administration and accounting. Its progress for the next 80 years is chronicled in this comprehensive history of the Faculty of Economics.

On the Road (Vagabonds #2) Jade C. Jamison 2015-12-21 All that glitters isn't gold; sometimes it's just plastic pretending to be so much more. I got my dream, but you know what they say: "Be careful what you wish for." Vagabonds has taken off, and I'm fulfilling every fantasy I've ever had. In a world of sex, drugs, and rock & roll on the road, I have it all. On the surface... But things are falling apart. Exploring the sexier, seedier side of the music world is thrilling and yet depressing at the same time. Lately, Vagabonds seems more like a "A Bag of Broads." The girls are crumbling under the fame and the only man who means anything to me just may be a memory on the roadside.
