Nothing But Fear Knud Romer 2012 The Second World War is long over but its legacy continues to tear a town - and a young boy's life - apart. Knud is growing up in Falster, a small Danish town in the 1960s. The war is over but the Germans are still hated and Knud has a German mother. Bullied and persecuted at school, he retreats into the eccentric world of his family's history - but he can't escape the fact that, for him, his parents, and his paternal grandparents, the war is still being fought. Depicting a town and a family devastated by prejudice, Nothing But Fear is written with empathy and venom in equal measure.

The end of Irish history? Colin Coulter 2018-07-30 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Ireland appears to be in the process of a remarkable social change, a process which has dramatically reversed a hitherto seemingly unstoppable economic decline. This exciting new book systematically scrutinises the interpretations and prescriptions that inform the 'Celtic Tiger'. Takes the standpoint that a more critical approach to the course of development being followed by the Republic is urgently required. Sets out to expose the fallacies that drive the fashionable rhetoric of Tigerhood. An esteemed list of contributors deal with issues such as immigration, the role of women, globalisation, and changing economic and social conditions.

The Common Place of Law Patricia Ewick 2014-12-10 Why do some people not hesitate to call the police to quiet a barking dog in the middle of the night, while others accept the pain and losses associated with defective products, unsuccessful surgery, and discrimination? Patricia Ewick and Susan Silbey collected accounts of the law from more than four hundred people of diverse backgrounds in order to explore the different ways that people use and experience it. Their fascinating and original study identifies three common narratives of law that are captured in the stories people tell. One narrative is based on an idea of the law as magisterial and remote. Another views the law as a game with rules that can be manipulated to one's advantage. A third narrative describes the law as an arbitrary power that is actively resisted. Drawing on these extensive case studies, Ewick and Silbey present individual experiences interwoven with an analysis that charts a

coherent and compelling theory of legality. A groundbreaking study of law and narrative, *The Common Place of Law* depicts the institution as it is lived: strange and familiar, imperfect and ordinary, and at the center of daily life.

Private Equity Thomas Kruger Andersen 2015-04-01 This book provides an introduction to private equity transactions. It describes the transactions, the main kinds of agreements governing these transactions, the ongoing relations of the parties, and the increasing regulation (both public and private) of the private equity sector. The descriptions of the individual transactions cover the stages of private equity funds' fundraising, the structuring of their investments in portfolio companies, and their subsequent exits from their investments. The Danish language edition of this book was the first general presentation of private equity law in Denmark, and this updated English version is likewise the first English presentation of the private equity sector from a Danish legal perspective. Not only is this a relevant textbook and an introduction to private equity, but is also a reference work for those who want to obtain a better understanding of the circumstances of a complex and important part of the financial services sector. Hans Christian Andersen and Community Anne Klara Bom 2020-01-07 The theme of community has perhaps never been of a more vital significance than in our present day and age. The process we refer to as modernity has been synonymous with the gradual fragmentation and disintegration of traditional communities on various levels of our societies. Today, we might be facing the culmination of this process. The spectres of nationalism are undermining various national and international communities. Inequality is on the rise. If people unite it is too often in the mistrust and sometimes hatred of other people. Hans Christian Andersen lived at a time when this process was at its early stages, and he was acutely aware of its potential perils. Alongside the transformations of traditional communities, other communities seem to appear. A recurring element in these culturally specific communities is literature, and Hans Christian Andersen is a key figure here, as his literary and cultural legacy has a magnetic effect on people around the globe. A vivid example of this effect was the conference *Hans Christian Andersen and Community*. The conference was held at the University of Southern Denmark in 2017 to celebrate the 150th anniversary of Hans Christian Andersen's status as honorary citizen in Odense. This book presents a selection of 19 contributions to the conference. In various ways, each chapter activates the concept of community in relation to Andersen as an author and as a citizen of the world he lived in as well as the cultural icon which he has become.

Researching Music Censorship Helmi Järviluoma 2017-06-23 Freedom of expression and its direct counterpart, censorship and silencing, are increasingly gaining attention in the world of art and culture. Through the growth of social media and its worldwide distribution, arts and cultural products are shared, and the increased visibility and audibility of culture is highlighted through iconic and pivotal clashes, such as the fatwa on The

Satanic Verses in 1989, the recurring bans on the music of Wagner, the alleged censorship of playlists following 9/11, and the cartoon crisis in 2006. This volume takes the discussion directly to the field of music studies in a broad frame and insists on examining music censorship in a global perspective. The book addresses the important and increasingly relevant issue of scholarship on music censorship and thus contributes to a detailed understanding of the phenomenon. Often, words and semantic meaning are held to be determining to the restrictions on musicians and singers, but as this collection documents, the reasons for censorship might not always be found in verbal messages. Rather, the positioning of a more broad understanding of why and how music can convey meaning and accordingly trigger censorship and bans is at the heart of this work. The complexity of music censorship includes historical, structural as well as emotional 'listeners' and interpretations of sound. The topic, accordingly, is political, as well as scholarly urgent.

Psychotherapy in Everyday Life Ole Dreier 2007-12-03 Psychotherapy in Everyday Life shows how clients employ therapy in their daily lives. The varied and extensive efforts involved in this are systematically overlooked in therapy research. The book shines important new light on processes of personal change and learning in practice. More generally speaking, it launches a theory of personhood based on how persons conduct their everyday lives in social practice. This approach and many of the book's findings are of immediate relevance for understanding other fields of expert practice.

Postmigration Anna Meera Gaonkar 2021-09-30 The concept of »postmigration« has recently gained importance in the context of European societies' obsession with migration and integration along with emerging new forms of exclusion and nationalisms. This book introduces ongoing debates on the developing concept of »postmigration« and how it can be applied to arts and culture. While the concept has mainly gained traction in the cultural scene in Berlin, Germany, the contributions expand the field of study by attending to cultural expressions in literature, theatre, film, and art across various European societies, such as the United Kingdom, France, Finland, Denmark, and Germany. By doing so, the contributions highlight this concept's potential and show how it can offer new perspectives on transformations caused by migration.

Exile Jakob Ejersbo 2011-10-27 For the vagabond pack of ex-pat Europeans, Indian Tanzanians and wealthy Africans at Moshi's International School, it's all about getting high, getting drunk and getting laid. Their parents - drug dealers, mercenaries and farmers gone to seed - are too dead inside to give a damn. Outwardly free but empty at heart, privileged but out of place,

these kids are lost, trapped in a land without hope. They can try to get out, but something will always drag them back - where can you go when you believe in nothing and belong to nowhere? Exile is the first of three powerful novels about growing up as an ex-pat in Tanzania. Ejersbo's first novel, Nordkraft, the Danish Trainspotting, was a phenomenal bestseller. Ejersbo's trilogy, only published after his death in 2008, has proved to be another cult and critical sensation.

The Nature and Authority of Precedent Neil Duxbury 2008 Neil Duxbury examines how precedents constrain legal decision-makers and how legal decision-makers relax and avoid those constraints. There is no single principle or theory which explains the authority of precedent but rather a number of arguments which raise rebuttable presumptions in favour of precedent-following. This book examines the force and the limitations of these arguments and shows that although the principal requirement of the doctrine of precedent is that courts respect earlier judicial decisions on materially identical facts, the doctrine also requires courts to depart from such decisions when following them would perpetuate legal error or injustice. Not only do judicial precedents not 'bind' judges in the classical-positivist sense, but, were they to do so, they would be ill suited to common-law decision-making. Combining historical inquiry and philosophical analysis, this book will assist anyone seeking to understand how precedent operates as a common-law doctrine.

Marketing Across Cultures Jean-Claude Usunier 2005 Back Cover Copy-Usunier "This book is noteworthy in its content and approach as well as in generating class discussion on intercultural marketing relations, exchange, and communications. With the diversity in world markets and the importance of having locally-specific understanding of markets and consumers, it is a welcome resource for teaching students who can either relate it to their own intercultural experiences or who have never had intercultural experiences themselves." Guliz Ger, Professor of Marketing, Faculty of Business Administration, Bilkent University, Turkey International marketing relationships have to be built on solid foundations. Transaction costs in international trade are high--only a stable and firmly established link between business people can enable them to overcome disagreements and conflicts of interest. "Marketing Across Cultures, 4e" uses a successful two-stage cultural approach to explore International Marketing. - A cross-cultural approach which compares marketing systems and local commercial customs in various countries - An inter-cultural approach which studies the interaction between business peoples of different national cultures "I used "Marketing Across Cultures" in courses in five different countries with students from more than 35 nations. The book provides a stimulating view on international marketing issues and at the same time allows in an excellent

way to sensitize and train students for intercultural work, which has become the norm for most medium-sized and large companies." Prof. Dr. Hartmut H. Holzmüller., Chair of Marketing University of Dortmund, Germany Invaluable to all undergraduate, postgraduate and MBA students studying International Marketing and for marketing practitioners who wish to improve their cultural awareness, "Marketing Across Cultures, 4e" is essential reading. On Guilt, Responsibility, and Punishment Alf Ross 1975-01-01 Selected essays originally published as a book in Danish in 1970. Three had been published before then in English, but the others are new. All deal with concepts common to law and morality. "They function in the same way in legal and moral discourse: guilt determines responsibility, and responsibility punishment. But the conditions under which a person incurs guilt differ according to whether the guilt is legal or moral, as do also the manner in which the responsibility takes effect and the penal reaction itself." The Last Execution Jesper Wung-Sung 2016-03-22 Called "brilliantly devastating" in a starred review from Kirkus Reviews, this award-winning, mesmerizing novel, based on the chilling true story of the last execution in Denmark's history, asks a question that plagues a small Danish town: does a fifteen-year-old boy deserve to be put to death? On February 22, 1853, a fifteen-year-old Niels Nelson is prepared to be executed on Gallows Hill. The master carpenter comes to measure Niels for his coffin. The master baker bakes bread for the spectators. The messenger posts the notice of execution in the town square. The poet prepares his best pen to record the events as

they unfold. A fly, Niels's only companion in the cell, buzzes. A dog hovers by his young master's window. A young girl hovers too, pitying the boy. The executioner sharpens his blade. This remarkable, wrenching story is told with the alternating perspectives of eleven different bystanders—one per hour—as the clock ticks ever closer to the moment when the boy must face his fate. Niels Nielson, a young peasant, was sentenced to death by beheading on the dubious charges of arson and murder. Does he have the right to live despite what he is accused of? That is the question the townsfolk ask as the countdown begins. With strong social conscience, piercing intellect, and masterful storytelling, Jesper Wung-Sung explores the age-old question: who determines who has the right to live or die?

Many valuable older articles are unable to be obtained readily. In addition each volume contains an informative introduction which provides an overview of the subject matter and justification of why the articles were collected. This series contains collections of articles in a manner that is of use for both teaching and research.
