*Research in Basic Writing* Michael G. Moran 1990 This reference handbook surveys research on the central issue associated with the teaching of unprepared writers. Though basic writing has only been recognized as a distinct area of teaching and research since 1975, the existing bibliographic texts already seem limited due to their age or lack of annotation. This volume provides current and extensive bibliographic essays and will help to define this new field of study for teachers and researchers. Following an introduction that summarizes the origins and significant texts in basic writing, the book is divided into three sections, Social Science Perspectives, Linguistic Perspectives, and Pedagogical Perspectives. The first

section, which contains three essays, views the field through the lens of social, psychological, and political issues. The second section, also containing three essays, examines contributions made from studies of grammar, dialects, and second-language acquisition. The third section, in its four essays, focuses on the design, development, administration, and evaluation of basic writing courses, the use of computers in basic writing classrooms, the role of the writing lab, and the preparation of basic writing teachers. An appendix that reviews current textbooks for basic writing courses is also included, as well as an index. This book will be a valuable resource for teachers of basic writing, in education courses and workshops that train teachers and tutors, and in fields such as linguistics, technical writing, and Teaching English as a Second Language. It will also be an important addition to public and university libraries and many education programs.

The Imaginative Argument Frank L. Cioffi 2005 More than merely a

writing text, *The Imaginative Argument* offers writers instruction on how to use their imaginations to improve their prose. Cioffi shows writers how they can enliven argument--the organizing rubric of all persuasive writing--by drawing on emotion, soul, and creativity, the wellsprings of imagination. While Cioffi suggests that argument should become a natural habit of mind for writers, he goes still further, inspiring writers to adopt as their gold standard the imaginative argument: the surprising yet strikingly apt insight that organizes disparate noises into music, that makes out of chaos, chaos theory. Rather than offering a model of writing based on established formulas or templates, Cioffi urges writers to envision argument as an active parsing of experience that imaginatively reinvents the world. Cioffi's manifesto asserts that successful argument also requires writers to explore their own deep-seated feelings, to exploit the fuzzy but often profoundly insightful logic of the imagination. But expression is not all that matters: Cioffi's work anchors itself in the actual. Drawing on Louis Kahn's notion that a good architect never has all the answers to a building's problems before its physical construction, Cioffi maintains that in argument, too, answers must be forged along the way, as the writer inventively deals with emergent problems and unforeseen complexities. Indeed, discovery, imagination, and invention suffuse all stages of the process. *The Imaginative Argument* offers all the intellectual kindling that writers need to ignite this creativity, from insights on developing ideas to avoiding bland assertions or logical leaps. It cites exemplary nonfiction prose stylists, including William James, Ruth Benedict, and Erving Goffman, as well as literary sources to demonstrate the dynamic of persuasive writing. Provocative and lively, it will prove not only essential reading but also inspiration for all those interested in arguing more imaginatively more successfully.
