The Girl in the Road Monica Byrne 2015-02-17 A debut that Neil Gaiman calls “Glorious. . . . So sharp, so focused and so human.” The Girl in the Road describes a future that is culturally lush and emotionally wrenching. Monica Byrne bursts on to the literary scene with an extraordinary vision of the future. In a world where global power has shifted east and revolution is brewing, two women embark on vastly different journeys—each harrowing and urgent and wholly unexpected. When Meena finds snakebites on her chest, her worst fears are realized: someone is after her and she must flee India. As she plots her exit, she learns of the Trail, an energy-harvesting bridge spanning the Arabian Sea that has become a refuge for itinerant vagabonds and loners on the run. This is her salvation. Slipping out in the cover of night, with a knapsack full of supplies including a pozit GPS, a scroll reader, and a sealable waterproof pod, she sets off for Ethiopia, the place of her birth. Meanwhile, Mariama, a young girl in Africa, is forced to flee her home. She joins up with a caravan of misfits heading across the Sahara. She is taken in by Yemaya, a beautiful and enigmatic woman who becomes her protector and confidante. They are trying to reach Addis Abba, Ethiopia, a metropolis swirling with radical politics and rich culture. But Mariama will find a city far different than she ever expected—romantic, turbulent, and dangerous. As one heads east and the other west, Meena and Mariama’s fates are linked in ways that are mysterious and shocking to the core. Written with stunning clarity, deep emotion, and a futuristic flair, *The Girl in the Road* is an artistic feat of the first order: vividly imagined, artfully told, and profoundly moving.

The Postman David Brin 2011-04-06 NOW A MAJOR MOTION PICTURE • “A moving experience . . . a powerful cautionary tale.” —Whitley Strieber He was a survivor—a wanderer who traded tales for food and shelter in the dark and savage aftermath of a devastating war. Fate touches him one chill winter’s day when he borrows the jacket of a long-dead postal worker to protect himself from the cold. The old, worn uniform still has power as a symbol of hope, and with it he begins to weave his greatest tale, of a nation on the road to recovery. This is the story of a lie that became the most powerful kind of truth. A timeless novel as urgently compelling as *War Day* or *Alas, Babylon*, David Brin’s *The Postman* is the dramatically moving saga of a man who rekindled the spirit of America through the power of a dream, from a modern master of science fiction. “The Postman will keep you engrossed until you’ve finished the last page.” —Chicago Tribune

A Room for the Dead Noel Hynd 2011-12-26 In this hard hitting and sharp-edged tale of the supernatural, Veteran New Hampshire State Police Detective Sergeant Frank O'Hara pursues a crazed serial killer whose crimes bear the grisly signature of Gary Ledbetter, a vicious murderer arrested by O'Hara and executed years earlier. Definitely not for the faint of heart. Mass market USA Today Best Seller in 1996. A Literary Guild Alternate Selection in 2005. It refuses to go away. Editorial Reviews From Publishers Weekly The chills come fast and hard in Hynd's latest, a riveting blend of ghost story and police procedural. New Hampshire state cop Frank O'Hara, approaching 50 and close to retirement, is given a case--a young woman is beheaded, her right hand cut off--that duplicates the M.O. of serial killer Gary Ledbetter. But Gary, a "low-rent Lothario" nabbed by O'Hara, was executed months ago in Florida, after political machinations moved the killer to a state with capital punishment. Since then, O'Hara's life has turned to ashes. He's taken seriously to booze, his wife has left him, his partner has committed suicide--and now, deep into another hated winter, something seems to be haunting his house: floors creak, doors slam, an empty rocking chair rocks. A tangle of right-wing state politics, skinhead thieves, a mysterious young woman and, increasingly, dialogues between O'Hara and what seems to be Gary's ghost lead the cop through past police corruption and malfeasance to a shattering conclusion. Throughout, the atmospherics are excellent and the local color first-rate: "There's ten months of winter and two months of bad skiing. The state animal is the skunk, the state bird is the black fly, the state citizen is the deadbeat, and the state sport is petty larceny." After several spy thrillers, Hynd switched to the occult with his previous novel, *Ghosts*. This spooky follow-up confirms that he's made the right choice. Copyright 1994 Reed Business Information, Inc. From Booklist Fans of Stephen King, John Saul, Dean Koontz, and the like will give Hynd a thumbs up for his latest

shivery ghost story. Detective Frank O'Hara, a New Hampshire cop anticipating early retirement, has to rethink his plans when a case he closed six months earlier comes back to haunt him—literally. Gary Ledbetter was executed for torturing, killing, and dismembering at least five young women up and down the eastern seaboard. But now another murder has taken place, and this one has all the grisly trademarks of Gary's particularly gruesome style. Since it was O'Hara's dogged investigation that sent Gary to the electric chair, the detective finds himself assigned to reinvestigate one of the most puzzling and terrifying cases of his career. While Hynd doesn't quite invoke the same level of nightmarish terror as some of his fellow horror writers, he's good at macabre, mind-bending plots with plenty of grotesque details, and he effectively blends the horror and mystery genres.

Imagined Frontiers Carl Abbott 2015-09-10 We live near the edge—whether in a settlement at the core of the Rockies, a gated community tucked into the wilds of the Santa Monica Mountains, a silicon culture emerging in the suburbs, or, in the future, homesteading on a terraformed Mars. In Imagined Frontiers, urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels, film, television, maps, and occasionally even performance art to explore these frontiers—the metropolitan frontier of suburban development, the classic continental frontier of American settlement, and the yet unrealized frontiers beyond Earth. Focusing on writers and artists working during the past half-century, an era of global economic and social reach, Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions. This book offers perspectives on such well-known authors as T. C. Boyle and John Updike and on such familiar movies and television shows as Falling Down and The Sopranos. By putting The Rockford Files and the cult favorite Firefly in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko, Abbott interweaves the disparate subjects of western history, urban planning, and science fiction in a single volume. Abbott combines all-new essays with others previously published but substantially revised to integrate western and urban history, literary analysis, and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture.
