Understanding E-Carceration James Kilgore 2022-01-18 A riveting primer on the growing trend of surveillance, monitoring, and control that is extending our prison system beyond physical walls and into a dark future—by the prize-winning author of *Understanding Mass Incarceration* “James Kilgore is one of my favorite commentators regarding the phenomenon of mass incarceration and the necessity of pursuing truly transformative change.” —Michelle Alexander, author of *The New Jim Crow* In the last decade, as the critique of mass incarceration has grown more powerful, many reformers have embraced changes that release people from prisons and jails. As educator, author, and activist James Kilgore brilliantly shows, these rapidly spreading reforms largely fall under the heading of “e-carceration”—a range of punitive technological interventions, from ankle monitors to facial recognition apps, that deprive people of their liberty, all in the name of ending mass incarceration. E-carceration can block people’s access to employment, housing, healthcare, and even the chance to spend time with loved ones. Many of these technologies gather data that lands in corporate and government databases and may lead to further punishment or the marketing of their data to Big Tech. This riveting primer on the world of techno-punishment comes from the author of award-winning *Understanding Mass Incarceration*. Himself a survivor of prison and e-carceration, Kilgore captures the breadth and complexity of these technologies and offers inspiring ideas on how to resist.

Six by Ten Taylor Pendergrass 2018-10-02 Thirteen personal accounts of solitary confinement’s devastating impact in the United States criminal justice system. Six by ten feet. That’s the average size of the cells in which tens of thousands of people incarcerated in the United States linger for weeks, months, and even decades in solitary confinement. With little stimulation and no meaningful human contact, these individuals struggle to preserve their identity, sanity, and even their lives. In thirteen intimate narratives, *Six by Ten* explores the mental, physical, and spiritual impacts of America’s widespread embrace of solitary confinement. Through stories from those subjected to solitary confinement, family members on the outside, and corrections officers, *Six by Ten* examines the darkest hidden corners of America’s mass incarceration culture and illustrates how solitary confinement inflicts lasting consequences on families and communities far beyond prison walls. Stories include those of Brian, who was shuttled from prison to prison across Illinois as part of an unofficial program that came to be known as “the circuit”; Heather, a mother fighting for the life of her son, Nikko, who was diagnosed as bipolar at a young age and sent to solitary as a teenager; and Sonya, a trans woman sent to solitary in a men’s jail in Texas, supposedly for her own protection. Praise for *Six by Ten* “A consistently eye-opening, urgent report on the use and misuse of prisoner isolation.” —Kirkus Reviews “Compels change by giving a voice to the voiceless . . . . The stories stop you in your tracks, but the appendices help move progress forward with simplicity, depth, and hope, beginning with ten things anyone can do that are impactful and accessible. The educational pieces of the book give apt background on the history and usage of solitary confinement, allowing even those examining the practice for the first time to have a firm grasp of the situation.” —Foreword Reviews “A deeply moving and profoundly unsettling wake up call for all citizens. The use of solitary confinement is deeply immoral and we must insist that it be banned in all of our nation’s prisons. Immediately.” —Heather Ann Thompson, Pulitzer Prize-winning author, *Blood in the Water: The Attica Prison Uprising of 1971 and Its Legacy*

[Right to Be Hostile](#) Erica R. Meiners 2010-11 Offers examples and insights into the “school to prison” pipeline phenomenon, showing how disciplinary regulations, pedagogy, pop culture and more not only implicitly advance, but actually normalize an expectation of incarceration for urban youth.

[Demystifying the Big House](#) Katherine A Foss 2018-05-23 Essays in this volume illustrate how shows such as *Orange Is the New Black* and *Oz* impact the public’s perception of crime rates, the criminal justice system, and imprisonment. Contributors look at prison wives on reality television series, portrayals of death row, breastfeeding while in prison, transgender prisoners, and black masculinity. They also examine the ways in which media messages ignore an individual’s struggle against an all too frequently biased system and instead dehumanize the incarcerated as violent and overwhelmingly masculine. Together these essays argue media reform is necessary for penal reform, proposing that more accurate media representations of prison life could improve public support for programs dealing with poverty, abuse, and drug addiction—factors that increase the likelihood of criminal activity and incarceration. Scholars from cultural and critical studies, feminist studies, queer studies, African American studies, media studies, sociology, and psychology offer critical analysis of media depictions of prison, bridging the media’s portrayals of incarcerated lives with actual experiences and bringing to light forgotten voices in prison narratives.

[Intervention & Strategies in Counseling and Psychotherapy](#) Richard E. Watts 2013-08-21 Psychology has recently shifted toward a phenomenological approach closely aligned with theories originally put forth by noted psychologist Alfred Adler. However, modern approaches are often presented in a language that differs from the original theories, with no acknowledgment to the contributions of Adler. *Interventions and Strategies in Counseling and Psychotherapy* corrects this oversight, illustrating the many ways in which Adlerian ideas underpin and influence contemporary therapeutic approaches. Original chapters by leading thinkers in the field address the practice of counseling and psychotherapy from a social-cognitive perspective and logically combine classic Adlerian theories with proven and effective methods from other approaches. The book covers a wide range of topics including play therapy, parent education, couples therapy, and problem-solving counseling. This book is essential reading not only for Adlerian psychologists, but also counselors, psychologists, and psychotherapists of any theoretical stripe who wish to keep their practical skills up-to-date. It is also of use to graduate and doctoral students enrolled in counseling and psychology programs.

[Terror Town, USA](#) John Ferak 2021-07-27 The veteran true crime author chronicles the terrifying murders, surprising arrest and dramatic trial of Illinois serial killer Milton Johnson. In the summer of 1983, an elusive serial killer stalked the blue-collar industrial city of Joliet, Illinois. One overnight killing spree took five victims, including members of the Will County Sheriff’s Office. The following month brought a quadruple murder inside a shop known for its pottery classes. The plague of violence sparked the controversial New York City-based Guardian Angels to descend on Joliet, generating more unwanted media attention for the community. The National Enquirer labeled Joliet “Terror Town, U.S.A.” With an arrest that seemed to come out of nowhere, authorities linked their suspect to a chilling fourteen homicides, plus three women who miraculously survived their agonizing encounters. But with multiple murder trials on the horizon, it remained anyone’s guess whether Milton Johnson was guilty of mass murder and if so, would he die by means of lethal injection at the Illinois Department of Corrections?

[Make a Difference](#) Gary MacDougal 2005-05 We now know the answers to helping long time welfare recipients become self-sufficient, and how to pry loose the dead hand of human service bureaucracies. “I enjoy coming to work and learning different things...I really like my kids to know I work...This should have happened 10 years ago...I believe many of my friends wouldn’t do no drugs if they had a chance for a real job.” - Rebecca, a woman from Chicago’s notorious housing projects, high school dropout and former welfare recipient now working at UPS. The problems with welfare systems is not a lack of funds, but rather failure to connect the funds to families and communities in a way that makes a difference in people’s lives. Through involvement with welfare recipients, community leaders, caseworkers and others, author Gary MacDougal and Illinois Governor Jim Edgar led the state government in its biggest reorganization since 1900, creating a model for the rest of the nation.

[Going Up the River](#) Joseph T. Hallinan 2003-07-08 The American prison system has grown tenfold in thirty years, while crime rates have been relatively flat: 2 million people are behind bars on any given day, more prisoners than in any other country in the world — half a million more than in Communist China, and the largest prison expansion the world has ever known. In *Going Up the River*, Joseph Hallinan gets to the heart of America’s biggest growth industry, a self-perpetuating prison-industrial complex that has become entrenched without public awareness, much less voter consent. He answers, in an extraordinary way, the essential question: What, in human terms, is the price we pay? He has looked for answers to that question in every corner of the “prison nation,” a world far off the media grid — the America of struggling towns and cities left behind by the information age and desperate for jobs and money. Hallinan shows why the more prisons we build, the more prisoners we create, placating everyone at the expense of the voiceless prisoners, who together make up one of the largest migrations in our nation’s history. Hell Is a Very Small Place Jean Casella 2014-11-11 "An unforgettable look at the peculiar horrors and humiliations involved in solitary confinement" from the prisoners who have survived it (New York Review of Books). On any given day, the United States holds more than eighty-thousand people in solitary confinement, a punishment that—beyond fifteen days—has been denounced as a form of cruel and degrading treatment by the UN Special Rapporteur on Torture. Now, in a book that will add a startling new dimension to the debates around human rights and prison reform, former and current prisoners describe the devastating effects of isolation on their minds and bodies, the solidarity expressed between individuals who live side by side for years without ever meeting one another face to face, the ever-present specters of madness and suicide, and the struggle to maintain hope and humanity. As Chelsea Manning wrote from her own solitary confinement cell, "The personal accounts by prisoners are some of the most disturbing that I have ever read." These firsthand accounts are supplemented by the writing of noted experts, exploring the psychological, legal, ethical, and political dimensions of solitary confinement. "Do we really think it makes sense to lock so many people alone in tiny cells for twenty-three hours a day, for months, sometimes for years at a time? That is not going to make us safer. That's not going to make us stronger." —President Barack Obama "Elegant but harrowing." —San Francisco Chronicle "A potent cry of anguish from men and women buried way down in the hole." —Kirkus Reviews

**Colored People** Henry Louis Gates, Jr. 2011-07-06 In a coming-of-age story as enchantingly vivid and ribald as anything Mark Twain or Zora Neale Hurston, Henry Louis Gates, Jr., recounts his childhood in the mill town of Piedmont, West Virginia, in the 1950s and 1960s and ushers readers into a gossip, of lye-and-mashed-potato "processes," and of slyly stubborn resistance to the indignities of segregation. A winner of the Chicago Tribune's Heartland Award and the Lillian Smith Prize, *Colored People* is a pungent and poignant masterpiece of recollection, a work that extends and deepens our sense of African American history even as it entrances us with its bravura storytelling

**More Than Houses** Millard Fuller 1999-10-05 In these pages you will find inspiring, true stories of people who didn't have hope?until they had a home. Stories of children who gained identity and confidence for their future. Of families made stronger and healthier and prison inmates who are now giving back to their communities. Of entire communities bonding together around an ethic of hard work and mutual respect. Of denominational, political, and racial barriers falling with every swing of the hammer. Of a growing host of young people engaged in the quest to end poverty housing. And even some wonderful love stories. The end result is nothing less than the transformation of lives, communities, and families?one person, one home at a time. Which, of course, has always been the dream?to build more than houses. "Habitat for Humanity is building much more than houses. By building hope it is building relationships, strengthening communities, and nurturing families." ?Actor Paul Newman, Habitat supporter "Rosalynn and I believe in Habitat's integrity, effectiveness, and tremendous vision. With Habitat, we build more than houses. We build families, communities, and hope." ?Former U.S. President Jimmy Carter "I could have gone through my whole life bouncing back and forth on welfare. Habitat makes a difference, and allows people to be what God intended them to be instead of what their circumstances dictate." ?Missouri homeowner Terrie Robinson

**Beyond Recidivism** Andrea Leverentz 2020-05-05 Understanding reentry experiences after incarceration Prison in the United States often has a revolving door, with droves of formerly incarcerated people ultimately finding themselves behind bars again. In *Beyond Recidivism*, Andrea Leverentz, Elsa Y. Chen, and Johnna Christian bring together a leading group of interdisciplinary scholars to examine this phenomenon using several approaches to research on recently released prisoners returning to their lives. They focus on the social context of reentry and look at the stories returning prisoners tell, including such key issues as when they choose to reveal (or not) their criminal histories. Drawing on contemporary studies, contributors examine the best ideas that have emerged over the last decade to understanding the challenges prisoners face upon reentering society. Together, they present a complete picture of prisoner reentry, including real-world recommendations for policies to ensure the well-being of returning prisoners, regardless of their past mistakes.

**Inside This Place, Not of It** Ayelet Waldman 2017-07-25 *Inside This Place, Not of It* reveals some of the most egregious human rights violations within women's prisons in the United States. Here, in their own words, thirteen narrators recount their lives leading up to incarceration and their harrowing struggle for survival once inside. Among the narrators: Theresa, who spent years believing her health and life were in danger, being aggressively treated with a variety of medications for a disease she never had. Only on her release did she discover that an incompetent prison medical bureaucracy had misdiagnosed her with HIV. Anna, who repeatedly warned apathetic prison guards about a suicidal cellmate. When the woman killed herself, the guards punished Anna in an attempt to silence her and hide their own negligence. Teri, who was sentenced to up to fifty years for aiding and abetting a robbery when she was only seventeen. A prison guard raped Teri, who was still a teenager, and the assaults continued for years with the complicity of other staff.

**Handbook of Public Pedagogy** Jennifer A. Sandlin 2010-07-29 Bringing together scholars, public intellectuals, and activists from across the field of education, the *Handbook of Public Pedagogy* explores and maps the terrain of this burgeoning field. For the first time in one comprehensive volume, readers will be able to learn about the history and scope of the concept and practices of public pedagogy. What is 'public pedagogy'? What theories, research, aims, and values inform it? What does it look like in practice? Offering a wide range of differing, even diverging, perspectives on how the 'public' might operate as a pedagogical agent, this Handbook provides new ways of understanding educational practice, both within and without schools. It implores teachers, researchers, and theorists to reconsider their foundational understanding of what counts as pedagogy and of how and where the process of education occurs. The questions it raises and the critical analyses they require provide curriculum and educational workers and scholars at large with new ways of understanding educational practice, both within and without schools.

From the forced labor camps of the nineteenth century to the rebellious protests of the 1960s and 1970s to the rise of mass incarceration and its discontents, *Rethinking the American Prison Movement* is invaluable to anyone interested in the history of American prisons and the struggles for justice still echoing in the present day.
