REA's AP study guides are teacher-recommended and written by experts who have mastered the course and the test. **Europe's Tragedy** Peter H. Wilson 2009-07-30 The horrific series of conflicts known as the Thirty Years War (1618-48) tore the heart out of Europe, killing perhaps a quarter of all Germans and laying waste to whole areas of Central Europe to such a degree that many towns and regions never recovered. All the major European powers apart from Russia were heavily involved and, while each country started out with rational war aims, the fighting rapidly spiralled out of control, with great battles giving way to marauding bands of starving soldiers spreading plague and murder. The war was both a religious and a political one and it was this tangle of motives that made it impossible to stop. Whether motivated by idealism or cynicism, everyone drawn into the conflict was destroyed by it. At its end a recognizably modern Europe had been created but at a terrible price. Peter Wilson's book is a major work, the first new history of the war in a generation, and a fascinating, brilliantly written attempt to explain a compelling series of events. Wilson's great strength is in allowing the reader to understand the tragedy of mixed motives that allowed rulers to gamble their countries' future with such horrifying results. The principal actors in the drama (Wallenstein, Ferdinand II, Gustavus Adolphus, Richelieu) are all here, but so is the experience of the ordinary soldiers and civilians, desperately trying to stay alive under impossible circumstances. The extraordinary narrative of the war haunted Europe's leaders into the twentieth century (comparisons with 1939-45 were entirely appropriate) and modern Europe cannot be understood without reference to this dreadful conflict.

**Questions, for the examination of pupils, on Tytler's Elements of General History** William HORNER (of Bath.) 1843  
**The English People at War in the Age of Henry VIII** Steven J. Gunn 2018 War should be recognised as one of the defining features of life in the England of Henry VIII. Henry fought many wars throughout his reign, and this book explores how this came to dominate English culture and shape attitudes to the king and to national history, with people talking and reading about war, and spending money on weaponry and defence. **The Thirty Years' War 1618-1648** Richard Bonney 2014-06-06 More than three and a half centuries have passed since the Peace of Westphalia ended the Thirty Years' War (1618-48); but this most devastating of wars in the early modern period continues to capture the imagination of readers: this book reveals why. It was one of the first wars where contemporaries stressed the importance of atrocities, the horrors of the fighting and also the sufferings of the civilian population. The Thirty Years' War remains a conflict of key importance in the history of the development of warfare and the 'military revolution'.

**The Thirty Years' War and German Memory in the Nineteenth Century** Kevin Cramer 2007-12-01 The nineteenth century witnessed the birth of German nationalism and the unification of Germany as a powerful nation-state. In this era the reading public's obsession with the most destructive and divisive war in its history?the Thirty Years' War?resurrected old animosities and sparked a violent, century-long debate over the origins and aftermath of the war. The core of this bitter argument was a clash between Protestant and Catholic historians over the cultural criteria determining authentic German identity and the territorial and political form of the future German nation. ø This groundbreaking study of modern Germany's morbid fascination with the war explores the ideological uses of history writing, commemoration, and collective remembrance to show how the passionate argument over the ?meaning? of the Thirty Years' War shaped Germans' conception of their nation. The first book in the extensive literature on German history writing to examine how modern German historians reinterpreted a specific event to define national identity and legitimate political and ideological agendas, *The Thirty Years' War and German Memory in the Nineteenth Century* is a bold intellectual history of the confluence of history writing, religion, culture, and politics in nineteenth-century Germany.

**The Origin and Prevention of Major Wars** Robert Gilpin 1989-02-24 This analysis of the origins of major wars, since the development of the modern state system in Europe centuries ago, also considers the problems involved in preventing a contemporary nuclear war.

**The Thirty Years War** Peter H. Wilson 2011-10-15 A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world.

**Caste** Isabel Wilkerson 2020-08-04 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. #1 NONFICTION BOOK OF THE YEAR: Time ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, The New York Times, Los Angeles Times, The Boston Globe, O: The Oprah Magazine, NPR, Bloomberg, The Christian Science Monitor, New York Post, The New York Public Library, Fortune, Smithsonian Magazine, Marie Claire, Slate, Library Journal, Kirkus Reviews Winner of the Carl Sandberg Literary Award • Winner of the Los Angeles Times Book Prize • National Book Award Longlist • National Book Critics Circle Award Finalist • Dayton

Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist • Kirkus Prize Finalist  
“As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched, and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Original and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

*German Histories in the Age of Reformations, 1400-1650* Thomas A. Brady 2009-07-13 This book studies the connections between the political reform of the Holy Roman Empire and the German lands around 1500 and the sixteenth-century religious reformations, both Protestant and Catholic. It argues that the character of the political changes (dispersed sovereignty, local autonomy) prevented both a general reformation of the Church before 1520 and a national reformation thereafter. The resulting settlement maintained the public peace through politically structured religious communities (confessions), thereby avoiding further religious strife and fixing the confessions into the Empire's constitution. The Germans' emergence into the modern era as a people having two national religions was the reformation's principal legacy to modern Germany.

*Introduction to the Study of History* William Binnigton Boyce 1884

*The Origins of the Boxer War* Lanxin Xiang 2014-02-04 This is the first book to provide a panoramic view of the origins of the Boxer War.

Comprehensively examining this historical conundrum of the 20th century from a detached perspective, the book is based on ten years of exhaustive research of both unpublished and published materials from all nine countries involved. Analysing the misunderstanding between the Chinese and foreign governments of the day, Lanxin Xiang debunks the traditional view that the anti-foreign Empress Dowager of the Chinese Empire was chiefly responsible for this catastrophic episode which altered the course of 20th century China's relationship with the west.

*The Study of History in American Colleges and Universities* Herbert Baxter Adams 1887

*A Little History of the World* E. H. Gombrich 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

*The Thirty Years' War and German Memory in the Nineteenth Century* Kevin Cramer 2007-07 This groundbreaking study of modern Germany's morbid fascination with the war explores the ideological uses of history writing, commemoration, and collective remembrance to show how the passionate argument over the "meaning" of the Thirty Years' War shaped the Germans' conception of their nation.

*The Winter King* Brennan C. Pursell 2017-05-15 Elector Palatinate Frederick V - the Winter King - would be an insignificant figure in the history of Europe were it not for the tremendous conflagration that he helped to ignite. Frederick's conflict with Holy Roman Emperor Ferdinand II over the throne of Bohemia plunged Europe into thirty years of savage violence, fiery devastation, and terrible privation during the first half of the seventeenth century. More than simply a biographical study of Frederick, *The Winter King* provides a fresh and compelling study into the causes of the Thirty Years' War. Examining the early stages of the war through the locus of Frederick, it reconciles the forces of confession, conscience and constitutionalism that affected Frederick's decision making at critical junctures throughout the crisis. By placing constitutionalism rather than religion at the centre of events, it offers a subtle yet convincing new account of the conflict. Drawing on political and personal correspondence, backed up with a wealth of archival and secondary sources, Dr Pursell presents Frederick's choices and alternatives and interprets his words and responses to them. Considering the war from Frederick's perspective he argues convincingly that the war is best understood not simply as a struggle between Protestant and Catholic powers, but rather as an extended constitutional conflict, entwining religious and political factors, fought within the Holy Roman Empire.

*Experiencing the Thirty Years War* Hans Medick 2013-03-01 One of the most momentous and destructive wars in European history, the Thirty Years War has long been studied for its diplomatic, political, and military consequences. Yet the actual participants in this religiously motivated, seemingly endless conflict have largely been ignored. Hans Medick and Benjamin Marschke reveal the Thirty Years War from the perspective of those who lived it. Their introduction provides important insights into the roiling religious and political landscape from which the war emerged, as well as a thoughtful examination of the war's stages and enduring significance. An unprecedented collection of personal accounts, many of them translated for the first time into English, combine with visual sources to convey directly to students the experience of early modern warfare. Incisive document headnotes, maps and illustrations, a chronology, questions to consider, and a bibliography enrich students' understanding of this fateful war.

*The Jesuits and the Thirty Years War* Robert Bireley 2003-06-26 This book brings to light the extent to which the Thirty Years War was a religious war.

*Curriculum Handbook with General Information Concerning ... for the United States Air Force Academy* United States Air Force Academy 2003

*A Study of History* Arnold Toynbee 1987 An illustrated, abridged, version of Toynbee's twelve-volume work on the process of history

*The Thirty Years War* C. V. Wedgwood 2016-09-13 Europe in 1618 was riven between Protestants and Catholics, Bourbon and Hapsburg—as well as empires, kingdoms, and countless principalities. After angry Protestants tossed three representatives of the Holy Roman Empire out the window of the royal castle in Prague, world war spread from Bohemia with relentless abandon, drawing powers from Spain to Sweden into a nightmarish world of famine, disease, and seemingly unstoppable destruction.

*Coping with Life during the Thirty Years' War (1618-1648)* Sigrun Haude 2021-08-30 In *Coping with Life during the Thirty Years' War (1618-1648)*, Sigrun Haude explores how people tried to survive the Thirty Years' War, on what resources they drew, and how they attempted to make sense of it.

*The Origins of the Second World War in Europe* P. M. H. Bell 2014-09-11 PMH Bell's famous book is a comprehensive study of the period and debates surrounding the European origins of the Second World War. He approaches the subject from three different angles: describing the various explanations that have been offered for the war and the historiographical debates that have arisen from them, analysing the ideological, economic and strategic forces at work in Europe during the 1930s, and tracing the course of events from peace in 1932, via the initial outbreak of hostilities in 1939, through to the climactic German attack on the Soviet Union in 1941 which marked the descent into general conflict. Written in a lucid, accessible style, this is an indispensable guide to the complex origins of the Second World War.

*A Guide to the Study and Use of Military History* John E. Jessup 1979

*Examination Papers [for the Years] 1908-1922* Trinity College (Dublin, Ireland) 1910

*Civilians and Warfare in World History* Nicola Foote 2017-08-23 This book explores the role played by civilians in shaping the outcomes of military combat across time and place. This volume explores the contributions civilians have made to warfare in case studies that range from ancient Europe to contemporary Africa and Latin America. Building on philosophical and legal scholarship, it explores the blurred boundary between combatant and civilian in different historical contexts and examines how the absence of clear demarcations shapes civilian strategic positioning and impacts civilian vulnerability to military targeting and massacre. The book argues that engagement with the blurred boundaries between combatant and non-combatant both advance the key analytical questions that underpin the historical literature on civilians and underline the centrality of civilians to a full understanding of warfare. The volume provides new insight into why civilian death and suffering has been so common, despite widespread beliefs embedded in legal and military codes across time and place that killing civilians is wrong. Ultimately, the case studies in the book show that civilians, while always victims of war, were nevertheless often able to become empowered agents in defending their own lives, and impacting the outcomes of wars. By highlighting civilian military agency and broadening the sense of which actors affect strategic outcomes, the book also contributes to a richer understanding of war itself. This book will be of much interest to students of military studies, international history, international relations and war and conflict studies.

*Questions, for the examination of pupils, on Tytler's Elements of general history* William George Horner 1843

*The Origins of the Second World War* Victor Rothwell 2001 Victor Rothwell examines the origins of World War II, from the flawed peace settlement

in 1919 to the start of the true world war at Pearl Harbor in 1941. He asks many important questions. Why did the cause of peace advance in the 1920s, only to be stopped in its tracks and threatened with reversal by the Great Depression?; what was the nature of Nazi thinking about war, foreign policy, and the policy of appeasement that sought to accommodate the Third Reich without again going to war? He also examines the events in the Far East at the time, and draws a contrast between the role of the US and the Far East throughout the 1930s. Copyright © Libri GmbH. All rights reserved.

*Examination Papers* Trinity College (Dublin, Ireland) 1918

*War and Gold* Kwasi Kwarteng 2014-05-27 The world was wild for gold. After discovering the Americas, and under pressure to defend their vast dominion, the Habsburgs of Spain promoted gold and silver exploration in the New World with ruthless urgency. But, the great influx of wealth brought home by plundering conquistadors couldn't compensate for the Spanish government's extraordinary military spending, which would eventually bankrupt the country multiple times over and lead to the demise of the great empire. Gold became synonymous with financial dependability, and following the devastating chaos of World War I, the gold standard came to express the order of the free market system. Warfare in pursuit of wealth required borrowing—a quickly compulsive dependency for many governments. And when people lost confidence in the promissory notes and paper currencies issued during wartime, governments again turned to gold. In this captivating historical study, Kwarteng exposes a pattern of war-waging and financial debt—bedmates like April and taxes that go back hundreds of years, from the French Revolution to the emergence of modern-day China. His evidence is as rich and colorful as it is sweeping. And it starts and ends with gold.

*The Thirty Years War* 2009-03-15 *The Thirty Years War: A Documentary History* fills a gap in recent studies of the great pan-European conflict, providing fresh translations of thirty-eight primary documents for the student and general reader. The selections are drawn from the standard political documents, from the Apology of the Bohemian Estates for the Defenestration of Prague to the text of the Treaty of Westphalia, as well as from imperial edicts, trial records, letters, diary entries, and satirical broadsheets, all directly translated from the Early New High German, French, Swedish, and Latin. The volume contains some ten illustrations and one map . . . and on the whole is well organized and well presented with a judicious amount of footnotes and a slim For Further Reading section. A succinct introduction introduces the four sections, each with its own substantial introduction: (1) Outbreak of the Thirty Years War (1618-1623), (2) The Intervention of Denmark and Sweden (1623-1635), and (3) The Long War (1635-1648). The concluding section (4) Two Wartime Lives (1618-1648), interestingly juxtaposes the journals of a wandering mercenary and a settled townsman. The first is the diary of Peter Hagendorf, kept between the years 1624 and 1649 and only rediscovered in 1993. Hagendorf experienced the war as a common mercenary from the Baltic to Italy, from France to Pomerania. His counterpart is Hans Heberle, a shoemaker from a small town in the territory of the free imperial city of Ulm whose Zeytregister chronicled happenings both in the neighborhood and further afield. The engrossing accounts of their shifting fortunes over the three decades of the war really help to give this collection of texts, and the troublesome period itself, a human face. They are the stuff from which Grimmshausen would craft his great novel of the war, *The Adventuresome Simplicissimus* (1668). Tryntje Hefferich is to be applauded for this consistently interesting and eminently useful volume. --Martin W. Walsh, University of Michigan, in *Sixteenth Century Journal*

*Getting MAD: Nuclear Mutual Assured Destruction, Its Origins and Practice*

*Germany and the Holy Roman Empire* Joachim Whaley 2012

Guide to the Civil Service Examinations; with directions for candidates, examination papers, abstract of commissioners' report, standards of qualification, amount of salaries. . . . Second edition, greatly enlarged Henry WHITE (B.A., Ph. D.) 1859

*Why Study History?* Marcus Collins 2020-05-27 Considering studying history at university? Wondering whether a history degree will get you a good job, and what you might earn? Want to know what it's actually like to study history at degree level? This book tells you what you need to know. Studying any subject at degree level is an investment in the future that involves significant cost. Now more than ever, students and their parents need to weigh up the potential benefits of university courses. That's where the *Why Study* series comes in. This series of books, aimed at students, parents and teachers, explains in practical terms the range and scope of an academic subject at university level and where it can lead in terms of careers or further study. Each book sets out to enthuse the reader about its subject and answer the crucial questions that a college prospectus does not.

*Courage and Grief* Mary Elizabeth Ailes 2018 *Courage and Grief* illuminates in a nuanced fashion Sweden's involvement in Europe's destructive Thirty Years' War (1618-48). Focusing on the various roles women performed in the bloody and extended conflict, Mary Elizabeth Ailes analyzes how methods of warfare and Swedish society were changing in profound ways. This study considers the experiences of unmarried camp followers and officers' wives as well as peasant women who remained in the countryside during times of conflict and upheaval. Women contributed to the war effort in a variety of ways. On campaign they provided support services to armies in the field. On the home front they helped to minimize disruptions incurred within their frayed communities. As increasing numbers of men left to fight overseas, women took over local economic activities and defended their families' interests. Such activities significantly altered the fabric of Swedish society. Examining women's wartime experiences in the Thirty Years' War enhances our understanding of women's roles in society, the nature of female power and authority, and the opportunities and hardships that warfare brought to women's lives.

*The Unwomanly Face of War* Svetlana Alexievich 2018-04-03 A long-awaited English translation of the groundbreaking oral history of women in World War II across Europe and Russia—from the winner of the Nobel Prize in Literature NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Washington Post* • *The Guardian* • *NPR* • *The Economist* • *Milwaukee Journal Sentinel* • *Kirkus Reviews* For more than three decades, Svetlana Alexievich has been the memory and conscience of the twentieth century. When the Swedish Academy awarded her the Nobel Prize, it cited her invention of "a new kind of literary genre," describing her work as "a history of emotions . . . a history of the soul." In *The Unwomanly Face of War*, Alexievich chronicles the experiences of the Soviet women who fought on the front lines, on the home front, and in the occupied territories. These women—more than a million in total—were nurses and doctors, pilots, tank drivers, machine-gunners, and snipers. They battled alongside men, and yet, after the victory, their efforts and sacrifices were forgotten. Alexievich traveled thousands of miles and visited more than a hundred towns to record these women's stories. Together, this symphony of voices reveals a different aspect of the war—the everyday details of life in combat left out of the official histories. Translated by the renowned Richard Pevear and Larissa Volokhonsky, *The Unwomanly Face of War* is a powerful and poignant account of the central conflict of the twentieth century, a kaleidoscopic portrait of the human side of war. THE WINNER OF THE NOBEL PRIZE IN LITERATURE "for her polyphonic writings, a monument to suffering and courage in our time." "A landmark."—Timothy Snyder, author of *On Tyranny: Twenty Lessons from the Twentieth Century* "An astonishing book, harrowing and life-affirming . . . It deserves the widest possible readership."—Paula Hawkins, author of *The Girl on the Train* "Alexievich has gained probably the world's deepest, most eloquent understanding of the post-Soviet condition. . . . [She] has consistently chronicled that which has been intentionally forgotten."—Masha Gessen, *National Book Award-winning author of The Future Is History*
