BUILDING THE 1/2 V.W.ENGINE - ultraligero

WebENGINE SELECTION Generally, look for a 1600 cc engine from a 1970 VW or later. The engine should have dual-port heads and case savers for the cylinder hold-down studs. VW engines with serial numbers beginning with AE or AK are excellent choices but don't discard other engines because they fail to meet the above criteria.

1953-1974 VW Engine Type and Number

Webengine will give over 130psi, a low compression version will probably be a little less than that, but since ALL engines lose compression as they age it's not a definitive test. The 1969 VW had either the H series 1500cc, a few L se-ries 1500cc (smog - probably sold in Cal), and in other parts
