Reproductive Sciences in Animal Conservation William V. Holt 2014-08-04 Reproductive biology is more than the development of techniques for helping with too little or too much breeding. While some of the relevant techniques are useful for individual species, technical developments have to be backed up by thorough biological understanding of the background behind the problems. This book is therefore threefold; (1) it provides a snapshot of the state of the art in terms of species-specific reproductive technologies, whether for individual animals or whole taxonomic groups; (2) it sets the reproductive problems in context and emphasizes the links between animal-based problems and the wider world, e.g. reproductive fitness and (3) it looks forward and presents realistic assessments of how effective some of the more recently developed techniques in reproductive technology might be at combating extinctions. This is a wide-ranging book that will be relevant to anyone involved in reproductive biology or in species conservation and provides them some useful perspectives about the real utility of current and emerging technologies. It has contributions from experts in reproduction and related fields.

Stick Sketch School: An Animal Artventure Billy Attinger 2017-02-15 Since Billy Attinger founded his company, Stick World, pop culture has exploded with stick figure art. Social media feeds and other online resources are the perfect home for this brand of simple, pithy, and often wickedly funny art. Stick figure images and messages are easily conveyed through social media, frequently going viral because of how easy they are to read and share on your phone. The best part about stick figures is that anyone can draw them! Billy Attinger showed how to draw stylized stick figures in his popular *Stick Sketch School: An Animal Artventure?*, and now he's back to show the world his stick figure animals. Take an "artventure" around the world: learn to draw stick animals in the jungle, the Arctic, the rainforest, the Outback, underwater, and more! You'll even learn how to draw extinct animals and fantasy animals in stick form. Each spread features a grid to show the reader how to draw the lines, how to add movement, expression, and more. Ideal for the visual learner and accompanied by tips and tricks from stick artist Billy Attinger, the book shows how to make your stick animals personal, recognizable, and unique!

Wildlife Search and Rescue Rebecca Dmytryk 2011-12-14 Rescuing wild animals in distress requires a unique set of skills, very different from those used in handling domestic animals. The equipment, degree of handling, the type of caging and level of care a wild animal receives can mean the difference between life and death. *Wildlife Search and Rescue* is a comprehensive guide on 'best practices' and suggested standards for response to sick, injured and orphaned wildlife. This valuable resource covers the fundamentals of wildlife rescue, from 'phone to field', including safe and successful capture strategies, handling and restraint techniques and initial aid. *Wildlife Search and Rescue* is a must have for anyone interested in knowing what to do when they are face to face with a wild animal in need, or for anyone involved in animal rescue. While the book focuses on wildlife native to North America, much of the information and many of the techniques are applicable to other species, including domestic dogs and cats. Visit www.wiley.com/go/dmytryk/wildlifeemergency to access the figures from the book.

Painting Wildlife in Watercolor Peggy Macnamara and Marlene Hill Donnelly 2021-01-08 Learn Wildlife Painting with Techniques from Masters With decades of experience at Chicago's renowned Field Museum, artist-in-residence Peggy Macnamara and scientific illustrator Marlene Hill Donnelly share tips on all aspects of painting wildlife in luminous watercolor. Painting Wildlife in Watercolor includes everything you'll need to know to go from basics to finishing touches of rendering vibrant lifelike animals, birds and reptiles. Well-known for her "no fear" approach which bypasses traditional composition methods, Peggy Macnamara employs a technique of gradually applying color to develop rich subtle tones. Balancing this is Marlene Donnelly's clear and detailed instruction on drawing and painting techniques-the perfect complement to the "no fear" approach. The authors explore subject matter, color theory, design, light and shadow, and present several illustrative demonstrations. Macnamara describes her process as a form of meditation and encourages the student to compose their image using many light layers. She says of her technique, "It automatically builds depth in the liquid expression of the eyes as well as in the rich texture of fur and feathers." Whether rendering birds, mammals, or reptiles, these master artists will guide you as you create your own interpretation, step by step, as they share their years of experience. This innovative approach allows artists at all levels of experience to imbue their work with a fresh and subtle beauty. This book is also available from Echo Point Books in hardcover (ISBN 1635619475).

A guide to wildlife friendly tourism by the members of Visit Ruġana Food and Agriculture Organization of the United Nations 2022-05-30 The Sustainable Wildlife Management (SWM) Programme in Guyana is encouraging coordinated community-driven initiatives that support food security and traditional livelihoods. These will contribute to maintaining healthy fish and terrestrial wildlife populations. It is being implemented by the Guyana Wildlife Conservation and Management Commission in coordination with the Center for International Forestry Research (CIFOR). The SWM Programme is the first international initiative to tackle the wild meat challenge by addressing both wildlife conservation and food security. Between 2018 and 2024, the SWM Programme implements field projects across three continents. The aim is to improve how wildlife hunting is regulated; increase the supply of sustainably produced meat products and farmed fish; strengthen the management capacities of indigenous and rural communities; reduce demand for wild meat, particularly in towns and cities. The SWM Programme is an Organisation of African, Caribbean and Pacific Group of States initiative, which is being funded by the European Union with co-funding from the French Global Environment Facility. The SWM Programme is being implemented by a dynamic consortium of partners which includes FAO, the French Agricultural Research Centre for International Development (CIRAD), CIFOR and the Wildlife Conservation Society (WCS).

North American Wildlife Patterns for the Scroll Saw Lora S. Irish 2002-04-15 Scroll saw artists never seem to have enough patterns – especially wildlife patterns. Here, artist Lora S. Irish presents 61 precisely drawn outline patterns for scrollers. Carefully inked lines make each pattern easy to follow. Scrollers may choose to photocopy or scan copies of the patterns to keep their book intact or use the patterns directly from the book. Ms. Irish includes patterns for each commonly known species of North American wildlife. Bears, wolves, deer, eagles and ducks all come to life under the scroller's blade. Ms. Irish also includes brief cutting instructions to aid beginning scrollers. The instructions include information on what blades to choose, what wood to use and how to make inside and outside cuts. Safety precautions are also outlined. Scroll saw patterns can be cut as is to make scroll saw fretwork plaques. Turning the table left or right will allow the pattern to be cut in relief, giving the final work a compressed, three-dimensional look. Intermediate level scrollers may choose to incorporate the patterns in jewelry boxes, cabinet doors and more.

Artist Animal Steve Baker 2013-02-27 Animals have always been compelling subjects for artists, but the rise of animal advocacy and posthumanist thought has prompted a reconsideration of the relationship between artist and animal. In this book, Steve Baker examines the work of contemporary artists who directly confront questions of animal life, treating animals not for their aesthetic qualities or as symbols of the human condition but rather as beings who actively share the world with humanity. The concerns of the artists presented in this book—Sue Coe, Eduardo Kac, Lucy Kimbell, Catherine Chalmers, Olly and Suzi, Angela Singer, Catherine Bell, and others—range widely, from the ecological to the philosophical and from those engaging with the modification of animal bodies to those seeking to further the cause of animal rights. Drawing on extensive interviews he conducted with the artists under consideration, Baker explores the vital contribution that contemporary art can make to a broader concept of animal life, emphasizing the importance of creativity and trust in both the making and understanding of these artworks. Throughout, Baker is attentive to issues of practice, form, and medium. He asks, for example, whether the animal itself could be said to be the medium in which these artists are working, and he highlights the tension between creative practice and certain kinds of ethical demands or expectations. Featuring full-color, vivid examples of their work, *Artist Animal* situates contemporary artists within the wider project of thinking beyond the human, asserting art's power to open up new ways of thinking about animals.

Wild New Jersey David Wheeler 2011 "Wild New Jersey brings the reader on a real-life safari through the Garden State's wildlife and natural wonders."-Tom Gilmore, President, New Jersey Audubon Society "Once you read this book, don't be surprised if you find yourself going straight to the nearest outdoor adventure, whether it be boating and birding the Meadowlands, hiking the Appalachian Trail, or exploring the Pinelands."-Captain Bill Sheehan, Hackensack Riverkeeper "What is wonderful about this book is it shows we still have wild places left even in the middle of our state's most developed urban areas. This book captures why we must preserve what's left of nature in New Jersey-and it reads like page-turner you can't put down."-Jeff Tittel, Director, New Jersey Sierra Club "Full of exciting tales about New Jersey, from the crowded urban areas to the most remote places of the state."-Joanna Burger, author of *A Naturalist Along the New Jersey Shore* The fastest animal on earth dive-bombs him from the skies. A young black bear bounds up a mountain trail a few yards away. Poisonous snakes swirl at his feet. A thousands bats careen past his head in a pitch-black roost. Pods of dolphins swim right past him by the scores. Who? Experienced naturalist David Wheeler. Where? Inside the pages of *Wild New Jersey*, of course. Count on this to be the first nature book to paint the extraordinary picture of New Jersey's unlikely wilderness in all its glory.
